Accent Pine in a warm modern room

Accent Pine from the Shaw Floors Anvil Plus 20 MIL line is a mid tone vinyl plank with a golden undertone (measured from its own picture: LRV 26). Here it is with Agreeable Gray walls, Greek Villa trim, and Hale Navy as the deep note, chosen by the numbers.

THE PALETTE

WALLS, TRIM AND CABINETS

WALLS
Agreeable Gray
Sherwin-Williams SW 7029 · LRV 60.4 · +34 from the floor
A soft neutral with a touch of warmth (hue 87°), so Accent Pine stays golden without turning yellow.

OR WALLS
Cloud White
Benjamin Moore OC-130 · LRV 85.1 · +59 from the floor
A soft neutral with a touch of warmth (hue 106°), so Accent Pine stays golden without turning yellow.

TRIM AND CEILINGS
Greek Villa
Sherwin-Williams SW 7551 · LRV 84.2 · +58 from the floor
58 points over Accent Pine in LRV and warm enough (chroma 5.3) to read white, not blue, beside its golden undertone.

THE DEEP NOTE
Hale Navy
Benjamin Moore HC-154 · LRV 8.4 · -18 from the floor
Deep and cool, about 168° around the color wheel from Accent Pine and 18 points darker in LRV, so each makes the other look richer.

Lower cabinets or an island in Hale Navy, uppers and trim in Greek Villa. The floor at LRV 26 sits between the two (8 and 84).

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
26	58	Golden	74°

A golden undertone, warm without leaning red. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Accent Pine is lighter than 52 percent of the 1,202 vinyl floors we carry, measured the same way, and warmer than 60 percent of them.

WOOD, RUGS AND METALS

A step darker: a mid brown wood
About 20 points darker than Accent Pine in L* (38 against 58), far enough to read as a choice. Like our Chestnut stain sample.

A step lighter: a pale, bleached wood
About 13 points lighter than Accent Pine in L* (72 against 58). Like our Country White stain sample.

Tone on tone: linen
7 in chroma, half the warmth of Accent Pine (16), and 28 points lighter in L*.

Across the wheel: graphite
Hue 254°, straight across the color wheel from the 74° of Accent Pine, softened to balance it.

Grounding: charcoal
A deep note at L* 28, 30 points from the 58 of Accent Pine, so a rug keeps its edge.

Aged brass
A warm metal that agrees with the golden undertone of Accent Pine (hue 74°).

Unlacquered brass
Left unsealed, it darkens with handling to a softer warm tone beside Agreeable Gray walls.

Matte black
Black works with every undertone; beside Accent Pine at LRV 26 it gives the room its outline.

ROOM BY ROOM

- **Living room** Agreeable Gray walls and Greek Villa trim around Accent Pine, a linen rug with a charcoal border, a coffee table in a mid brown wood, aged brass lamps.
- **Kitchen** Hale Navy on the island or the lower cabinets, Greek Villa uppers, unlacquered brass pulls, Accent Pine underfoot.
- **Bedroom** Cloud White walls, bedding in linen with one graphite pillow, nightstands in a pale, bleached wood.
- **Entry** A charcoal runner on Accent Pine, Hale Navy on the front door, a matte black mirror.

WHAT TO AVOID

- Walls at the lightness of Accent Pine: Evergreen Fog (Sherwin-Williams SW 9130, LRV 30.4) sits 4 points from its LRV of 26, so wall and floor would blur into one.
- Wood that almost matches Accent Pine: a tone like our Silvered Gray sample, 4.3 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Walls that lean yellow: yellow on yellow flattens the golden undertone of Accent Pine (hue 74°).

THE ROOM IT SUITS

At LRV 26, Accent Pine is a mid tone: it holds its color in a sunny room and hides everyday dust and pet hair better than a very dark or very light floor.

At 7 inches a board, Accent Pine lays about 21 boards across a 12 foot room, so the room reads open with few seams.

Accent Pine is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 20 mil

Core: SPC, a rigid stone polymer core

Finish: ScufResist®
