Blanca in a coastal room

Blanca from the Stanton Lenox Peak line is a very light vinyl plank with almost no undertone (measured from its own picture: LRV 78). Here it is with Evergreen Fog walls, Extra White trim, and Newburg Green as the deep note, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	DEEP NOTE	WOOD
Blanca	**Evergreen Fog**	**Extra White**	**Newburg Green**	**A pale, bleached wood**

WALLS, TRIM AND CABINETS

WALLS
Evergreen Fog
Sherwin-Williams SW 9130 · LRV 30.4 · -48 from the floor
A soft, cool leaning color (hue 116°) that keeps Blanca crisp and gray.

OR WALLS
October Mist
Benjamin Moore 1495 · LRV 46.5 · -32 from the floor
A soft, cool leaning color (hue 114°) that keeps Blanca crisp and gray.

TRIM AND CEILINGS
Extra White
Sherwin-Williams SW 7006 · LRV 85.9 · +8 from the floor
8 points over Blanca in LRV, a clean white (chroma 2.6) that keeps Blanca crisp.

THE DEEP NOTE
Newburg Green
Benjamin Moore HC-158 · LRV 10.6 · -67 from the floor
Deep and quiet, 67 points darker than Blanca in LRV, a frame for a gray floor.

Lower cabinets or an island in Newburg Green, uppers and trim in Extra White. The floor at LRV 78 sits between the two (11 and 86).

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
78	91	Gray	0°

A near gray, with almost no warmth. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Blanca is lighter than 99 percent of the 1,202 vinyl floors we carry, measured the same way, and warmer than 0 percent of them.

WOOD, RUGS AND METALS

A step darker: a pale, bleached wood
About 19 points darker than Blanca in L* (72 against 91), far enough to read as a choice. Like our Country White stain sample.

A step lighter: black or painted pieces
Blanca is lighter than any wood stain we photographed (L* 91), so contrast comes from black, painted or upholstered pieces.

Tone on tone: smoke
0 in chroma, half the warmth of Blanca (0), and 34 points darker in L*.

Across the wheel: eucalyptus
Hue 180°, straight across the color wheel from the 0° of Blanca, softened to balance it.

Grounding: stone gray
A deep note at L* 61, 30 points from the 91 of Blanca, so a rug keeps its edge.

Polished nickel
A bright nickel with a touch of warmth, for the gray undertone of Blanca (chroma 0.0).

Chrome
The brightest and coolest finish, crisp against Blanca at chroma 0.0.

Matte black
Black works with every undertone; beside Blanca at LRV 78 it gives the room its outline.

ROOM BY ROOM

- **Living room** Evergreen Fog walls and Extra White trim, a smoke rug in a flat weave on Blanca, eucalyptus pillows, black or painted side tables.
- **Kitchen** Extra White cabinets with an island in Newburg Green, polished nickel hardware, Blanca underfoot.
- **Bedroom** October Mist walls, smoke linen, a eucalyptus throw, chrome on the lamps.
- **Bath** Newburg Green on the vanity, Extra White walls, a stone gray mat, matte black fixtures.

WHAT TO AVOID

- Walls at the lightness of Blanca: Silver Satin (Benjamin Moore OC-26, LRV 74.9) sits 3 points from its LRV of 78, so wall and floor would blur into one.
- Whites that lean yellow: beside Blanca, a near gray, they look dingy.

THE ROOM IT SUITS

At LRV 78, Blanca is very light: it bounces light back into the room, suits north facing rooms, basements and small rooms, and shows dark grit more than lint.

At 5 inches a board, Blanca lays about 29 boards across a 12 foot room.

Blanca is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Core: SPC, a rigid stone polymer core

Water: Waterproof (the maker's word)
