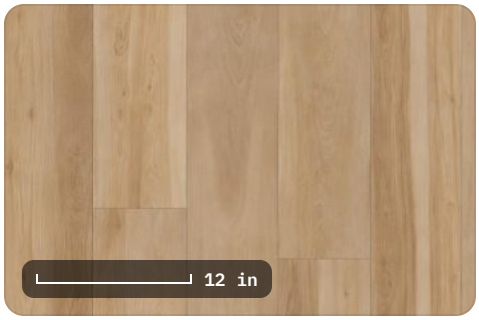
Blended Praline in a modern farmhouse room

Blended Praline, from the COREtec Originals Premium line, is a mid tone vinyl plank with a golden undertone (measured from its own picture: LRV 35). Here it is with Pure White walls, Greek Villa trim and Tricorn Black as the deep note, chosen by the numbers.



THE PALETTE

THE FLOOR	WALLS	TRIM	DEEP NOTE	WOOD
Blended Praline LRV 35	**Pure White** Sherwin-Williams SW 7005 LRV 84	**Greek Villa** Sherwin-Williams SW 7551 LRV 84.2	**Tricorn Black** Sherwin-Williams SW 6258 LRV 2.8	**A smoky gray brown wood** Like our Dark Gray stain sample

WALLS, TRIM AND CABINETS

WALLS
Pure White
Sherwin-Williams SW 7005 · LRV 84 · +49 from the floor
A soft neutral with a touch of warmth (hue 103°), so Blended Praline stays golden without turning yellow.

OR WALLS
Simply White
Benjamin Moore OC-117 · LRV 89.5 · +55 from the floor
A soft neutral with a touch of warmth (hue 110°), so Blended Praline stays golden without turning yellow.

TRIM AND CEILINGS
Greek Villa
Sherwin-Williams SW 7551 · LRV 84.2 · +50 from the floor
50 points over Blended Praline in LRV and warm enough (chroma 5.3) to read white, not blue, beside its golden undertone.

THE DEEP NOTE
Tricorn Black
Sherwin-Williams SW 6258 · LRV 2.8 · -32 from the floor
Deep and quiet, 32 points darker than Blended Praline in LRV, a frame for a golden floor.

Lower cabinets or an island in Tricorn Black, uppers and trim in Greek Villa. The floor at LRV 35 sits between the two (3 and 84).

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
35	66	Golden	74°

A golden undertone, warm without leaning red. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Blended Praline is lighter than 72 percent of the 1,197 vinyl floors we carry, measured the same way, and warmer than 90 percent of them.

WOOD, RUGS AND METALS

A step darker: a smoky gray brown wood
About 20 points darker than Blended Praline in L* (45 against 66), far enough to read as a choice. Like our Dark Gray stain sample.

A step lighter: black or painted pieces
Blended Praline is lighter than any wood stain we photographed (L* 66), so contrast comes from black, painted or upholstered pieces.

Tone on tone: walnut brown
11 in chroma, half the warmth of Blended Praline (24), and 34 points darker in L*.

Across the wheel: storm blue
Hue 254°, straight across the color wheel from the 74° of Blended Praline, softened to balance it.

Grounding: mocha
A deep note at L* 36, 30 points from the 66 of Blended Praline, so a rug keeps its edge.

Matte black
Black works with every undertone; beside Blended Praline at LRV 35 it gives the room its outline.

Aged brass
A warm metal that agrees with the golden undertone of Blended Praline (hue 74°).

Unlacquered brass
Left unsealed, it darkens with handling to a softer warm tone beside Pure White walls.

ROOM BY ROOM

- **Living room** Pure White walls and Greek Villa trim, a walnut brown rug with a mocha edge on Blended Praline, a coffee table in a smoky gray brown wood.
- **Kitchen** Tricorn Black on the island, Greek Villa cabinets above, matte black pulls, Blended Praline underfoot.
- **Dining room** A table in a smoky gray brown wood on Blended Praline, black or painted chairs, aged brass pendants.
- **Bedroom** Simply White walls, walnut brown linen, a storm blue quilt, unlacquered brass on the lamps.

WHAT TO AVOID

- Walls at the lightness of Blended Praline: Debonair (Sherwin-Williams SW 9139, LRV 33.9) sits within a point of its LRV of 35, so wall and floor would blur into one.
- Wood that almost matches Blended Praline: a tone like our Silvered Gray sample, 4.8 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Walls that lean yellow: yellow on yellow flattens the golden undertone of Blended Praline (hue 74°).

THE ROOM IT SUITS

At LRV 35, Blended Praline is a mid tone: it holds its color in a sunny room and hides everyday dust and pet hair better than a very dark or very light floor.

At 7 inches a board, Blended Praline lays about 21 boards across a 12 foot room, so the room reads open with few seams.

Blended Praline is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 20 mil

Core: WPC, a wood plastic composite core

Finish: UV Acrylic
