Aldergrove Oak in a coastal room

Aldergrove Oak from the COREtec Pro Plus Enhanced Planks line is a mid tone vinyl plank with a soft greige undertone (measured from its own picture: LRV 36). Here it is with Creamy walls, Alabaster trim, and Newburg Green as the deep note, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	DEEP NOTE	WOOD
Aldergrove Oak LRV 36	**Creamy** Sherwin-Williams SW 7012 LRV 81.2	**Alabaster** Sherwin-Williams SW 7008 LRV 82.2	**Newburg Green** Benjamin Moore HC-158 LRV 10.6	**A warm gray brown wood** Like our Warm Gray stain sample

WALLS, TRIM AND CABINETS

WALLS
Creamy
Sherwin-Williams SW 7012 · LRV 81.2 · +45 from the floor
A warm white or greige in the same soft family as Aldergrove Oak (hue 89° against its 76°).

OR WALLS
Simply White
Benjamin Moore OC-117 · LRV 89.5 · +53 from the floor
A warm white or greige in the same soft family as Aldergrove Oak (hue 110° against its 76°).

TRIM AND CEILINGS
Alabaster
Sherwin-Williams SW 7008 · LRV 82.2 · +46 from the floor
46 points over Aldergrove Oak in LRV and warm enough (chroma 5.3) to read white, not blue, beside its greige undertone.

THE DEEP NOTE
Newburg Green
Benjamin Moore HC-158 · LRV 10.6 · -26 from the floor
Deep and quiet, 26 points darker than Aldergrove Oak in LRV, a frame for a greige floor.

Lower cabinets or an island in Newburg Green, uppers and trim in Alabaster. The floor at LRV 36 sits between the two (11 and 82).

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
36	67	Greige	76°

A greige: soft gray with a little warmth. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Aldergrove Oak is lighter than 75 percent of the 1,206 vinyl floors we carry, measured the same way, and warmer than 46 percent of them.

WOOD, RUGS AND METALS

A step darker: a warm gray brown wood
About 19 points darker than Aldergrove Oak in L* (48 against 67), far enough to read as a choice. Like our Warm Gray stain sample.

A step lighter: black or painted pieces
Aldergrove Oak is lighter than any wood stain we photographed (L* 67), so contrast comes from black, painted or upholstered pieces.

Tone on tone: walnut brown
6 in chroma, half the warmth of Aldergrove Oak (13), and 34 points darker in L*.

Across the wheel: storm blue
Hue 256°, straight across the color wheel from the 76° of Aldergrove Oak, softened to balance it.

Grounding: graphite
A deep note at L* 37, 30 points from the 67 of Aldergrove Oak, so a rug keeps its edge.

Polished nickel
A bright nickel with a touch of warmth, for the greige undertone of Aldergrove Oak (chroma 12.9).

Champagne bronze
A warm metal that agrees with the greige undertone of Aldergrove Oak (hue 76°).

Brushed nickel
A soft satin nickel, quieter than chrome, for the greige of Aldergrove Oak.

ROOM BY ROOM

- **Living room** Creamy walls and Alabaster trim, a walnut brown rug in a flat weave on Aldergrove Oak, storm blue pillows, black or painted side tables.
- **Kitchen** Alabaster cabinets with an island in Newburg Green, polished nickel hardware, Aldergrove Oak underfoot.
- **Bedroom** Simply White walls, walnut brown linen, a storm blue throw, champagne bronze on the lamps.
- **Bath** Newburg Green on the vanity, Alabaster walls, a graphite mat, brushed nickel fixtures.

WHAT TO AVOID

- Walls at the lightness of Aldergrove Oak: Debonair (Sherwin-Williams SW 9139, LRV 33.9) sits 3 points from its LRV of 36, so wall and floor would blur into one.
- Wood that almost matches Aldergrove Oak: a tone like our Country White sample, 4.7 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Stark blue whites everywhere: a greige floor like Aldergrove Oak turns muddy beside them. Keep the whites a little warm.

THE ROOM IT SUITS

At LRV 36, Aldergrove Oak is a mid tone: it holds its color in a sunny room and hides everyday dust and pet hair better than a very dark or very light floor.

At 7 inches a board, Aldergrove Oak lays about 21 boards across a 12 foot room, so the room reads open with few seams.

Aldergrove Oak is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 20 mil

Core: SPC, a rigid stone polymer core

Finish: UV Acrylic
