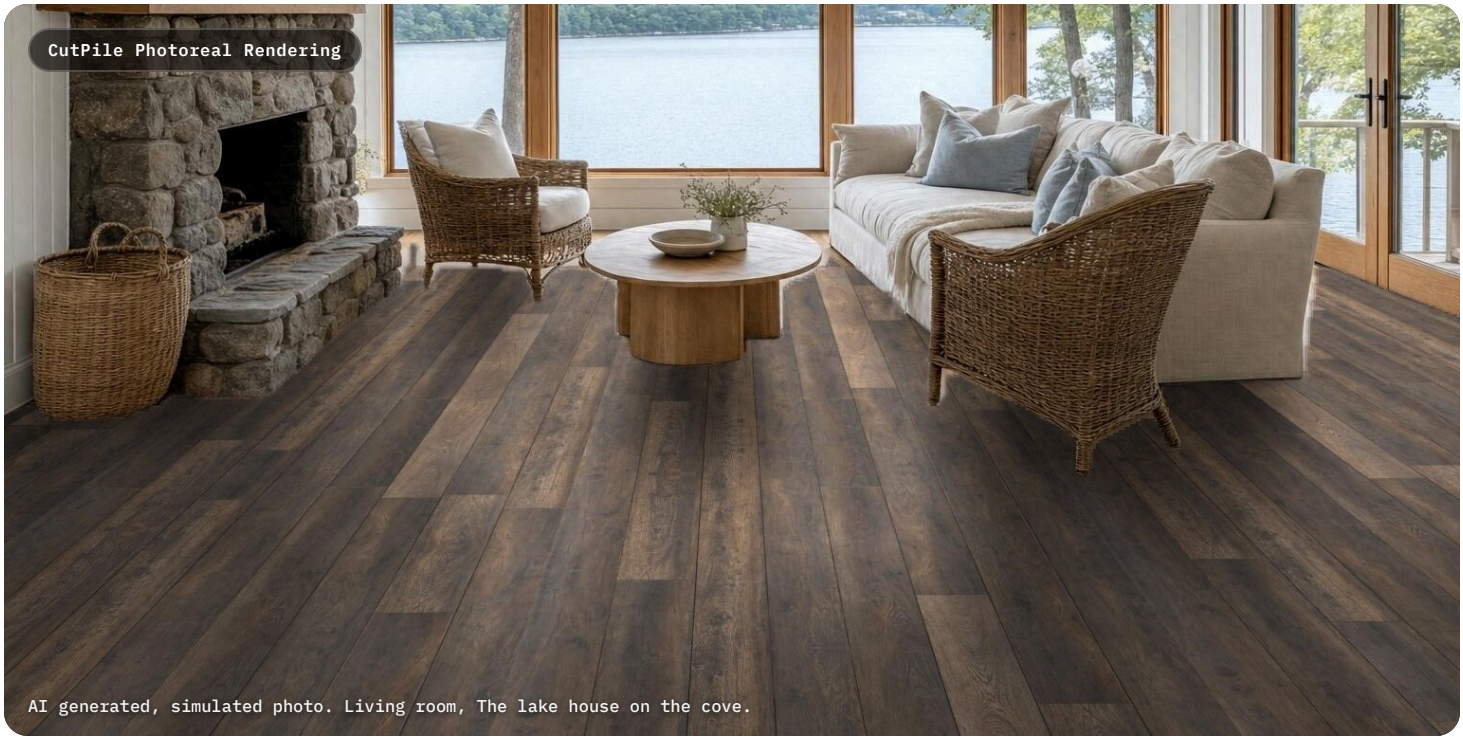
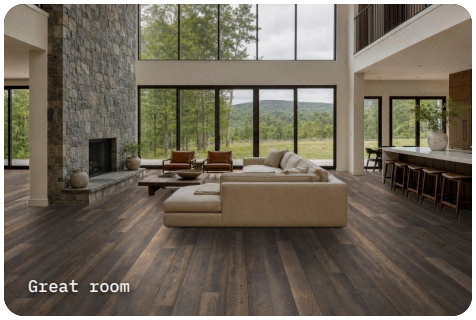
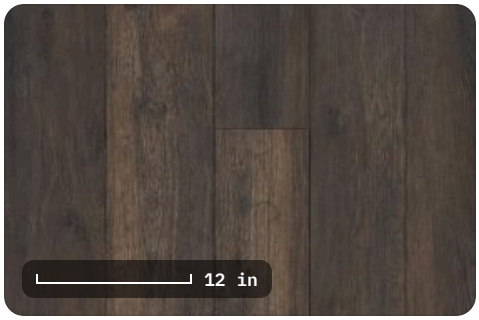
Cornwell in a dark and moody room

Cornwell, from the Legacy Flooring Collection AquaProof line, is a dark laminate with a warm greige undertone (measured from its own picture: LRV 6). Here it is with Amazing Gray walls, Greek Villa trim and Silver Satin on the cabinets, chosen by the numbers.







THE PALETTE

THE FLOOR	WALLS	TRIM	CABINETS	WOOD
Cornwell LRV 6	**Amazing Gray** Sherwin-Williams SW 7044 LRV 46.9	**Greek Villa** Sherwin-Williams SW 7551 LRV 84.2	**Silver Satin** Benjamin Moore OC-26 LRV 74.9	**A smoky gray brown wood** Like our Dark Gray stain sample

WALLS, TRIM AND CABINETS

WALLS
Amazing Gray
Sherwin-Williams SW 7044 · LRV 46.9 · +41 from the floor
A warm white or greige in the same soft family as Cornwell (hue 81° against its 62°).

OR WALLS
Thunder
Benjamin Moore AF-685 · LRV 47.6 · +42 from the floor
A warm white or greige in the same soft family as Cornwell (hue 92° against its 62°).

TRIM AND CEILINGS
Greek Villa
Sherwin-Williams SW 7551 · LRV 84.2 · +78 from the floor
78 points over Cornwell in LRV and warm enough (chroma 5.3) to read white, not blue, beside its greige undertone.

CABINETS
Silver Satin
Benjamin Moore OC-26 · LRV 74.9 · +69 from the floor
A light color with some life in it, so cabinets float off Cornwell (a 69 point step in LRV).

Cabinets in Silver Satin or Greek Villa: a dark floor needs light cabinets to float above it.

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
6	29	Greige	62°

A warm greige: gray with a little brown in it. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Cornwell is lighter than 0 percent of the 45 laminate floors we carry, measured the same way, and warmer than 4 percent of them.

WOOD, RUGS AND METALS

A step lighter: a smoky gray brown wood
About 16 points lighter than Cornwell in L* (45 against 29). Like our Dark Gray stain sample.

Tone on tone: smoke
3 in chroma, half the warmth of Cornwell (6), and 28 points lighter in L*.

Across the wheel: slate blue
Hue 242°, straight across the color wheel from the 62° of Cornwell, softened to balance it.

Grounding: dove gray
A light note at L* 74, 45 points from the 29 of Cornwell, so a rug keeps its edge.

Aged brass
A warm metal that agrees with the greige undertone of Cornwell (hue 62°).

Champagne bronze
A paler warm metal, quieter than brass beside Amazing Gray and Greek Villa.

Brushed nickel
A soft satin nickel, quieter than chrome, for the greige of Cornwell.

ROOM BY ROOM

- **Living room** Amazing Gray walls and Greek Villa trim over Cornwell, velvet in smoke with a slate blue pillow, aged brass lamps on low.
- **Kitchen** Cabinets in Silver Satin so they float off Cornwell, Greek Villa walls and trim, champagne bronze pulls.
- **Bedroom** Thunder walls, smoke bedding, nightstands in a smoky gray brown wood, brushed nickel on the lamps.
- **Entry** A dove gray runner on Cornwell, Silver Satin on the door, a champagne bronze mirror.

WHAT TO AVOID

- Walls at the lightness of Cornwell: Iron Ore (Sherwin-Williams SW 7069, LRV 5.6) sits within a point of its LRV of 6, so wall and floor would blur into one.
- Wood that almost matches Cornwell: a tone like our Ebony sample, 1.8 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Stark blue whites everywhere: a greige floor like Cornwell turns muddy beside them. Keep the whites a little warm.

THE ROOM IT SUITS

At LRV 6, Cornwell is dark: it is at its best in a big room with good light and warm lamps, and it shows dust, pet hair and fine scratches more than a mid tone.

At 7.7 inches a board, Cornwell lays about 19 boards across a 12 foot room, so the room reads open with few seams.

Cornwell is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Water: Waterproof (the maker's word)
