Blended Cocoon in a coastal room

Blended Cocoon from the COREtec Originals Premium line is a light vinyl plank with a golden undertone (measured from its own picture: LRV 40). Here it is with Simply White walls, Swiss Coffee trim, and Distance as the deep note, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	DEEP NOTE	WOOD
Blended Cocoon LRV 40	**Simply White** Benjamin Moore OC-117 LRV 89.5	**Swiss Coffee** Benjamin Moore OC-45 LRV 81.9	**Distance** Sherwin-Williams SW 6243 LRV 15.2	**A warm gray brown wood** Like our Warm Gray stain sample

WALLS, TRIM AND CABINETS

WALLS
Simply White
Benjamin Moore OC-117 · LRV 89.5 · +49 from the floor
A soft neutral with a touch of warmth (hue 110°), so Blended Cocoon stays golden without turning yellow.

OR WALLS
Dover White
Sherwin-Williams SW 6385 · LRV 82.5 · +42 from the floor
A soft neutral with a touch of warmth (hue 93°), so Blended Cocoon stays golden without turning yellow.

TRIM AND CEILINGS
Swiss Coffee
Benjamin Moore OC-45 · LRV 81.9 · +42 from the floor
42 points over Blended Cocoon in LRV and warm enough (chroma 5.7) to read white, not blue, beside its golden undertone.

THE DEEP NOTE
Distance
Sherwin-Williams SW 6243 · LRV 15.2 · -25 from the floor
Deep and cool, about 176° around the color wheel from Blended Cocoon and 25 points darker in LRV, so each makes the other look richer.

Lower cabinets or an island in Distance, uppers and trim in Swiss Coffee. The floor at LRV 40 sits between the two (15 and 82).

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
40	70	Golden	80°

A golden undertone, warm without leaning red. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Blended Cocoon is lighter than 81 percent of the 1,202 vinyl floors we carry, measured the same way, and warmer than 62 percent of them.

WOOD, RUGS AND METALS

A step darker: a warm gray brown wood
About 22 points darker than Blended Cocoon in L* (48 against 70), far enough to read as a choice. Like our Warm Gray stain sample.

A step lighter: black or painted pieces
Blended Cocoon is lighter than any wood stain we photographed (L* 70), so contrast comes from black, painted or upholstered pieces.

Tone on tone: mocha
7 in chroma, half the warmth of Blended Cocoon (16), and 34 points darker in L*.

Across the wheel: storm blue
Hue 260°, straight across the color wheel from the 80° of Blended Cocoon, softened to balance it.

Grounding: graphite
A deep note at L* 40, 30 points from the 70 of Blended Cocoon, so a rug keeps its edge.

Polished nickel
A bright nickel with a touch of warmth, for the golden undertone of Blended Cocoon (chroma 16.0).

Aged brass
A warm metal that agrees with the golden undertone of Blended Cocoon (hue 80°).

Unlacquered brass
Left unsealed, it darkens with handling to a softer warm tone beside Simply White walls.

ROOM BY ROOM

- **Living room** Simply White walls and Swiss Coffee trim, a mocha rug in a flat weave on Blended Cocoon, storm blue pillows, black or painted side tables.
- **Kitchen** Swiss Coffee cabinets with an island in Distance, polished nickel hardware, Blended Cocoon underfoot.
- **Bedroom** Dover White walls, mocha linen, a storm blue throw, aged brass on the lamps.
- **Bath** Distance on the vanity, Swiss Coffee walls, a graphite mat, unlacquered brass fixtures.

WHAT TO AVOID

- Walls at the lightness of Blended Cocoon: Clary Sage (Sherwin-Williams SW 6178, LRV 41) sits within a point of its LRV of 40, so wall and floor would blur into one.
- Wood that almost matches Blended Cocoon: a tone like our Country White sample, 3.6 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Walls that lean yellow: yellow on yellow flattens the golden undertone of Blended Cocoon (hue 80°).

THE ROOM IT SUITS

At LRV 40, Blended Cocoon is light: it bounces light back into the room, suits north facing rooms, basements and small rooms, and shows dark grit more than lint.

At 7 inches a board, Blended Cocoon lays about 21 boards across a 12 foot room, so the room reads open with few seams.

Blended Cocoon is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 20 mil

Core: WPC, a wood plastic composite core

Finish: UV Acrylic
