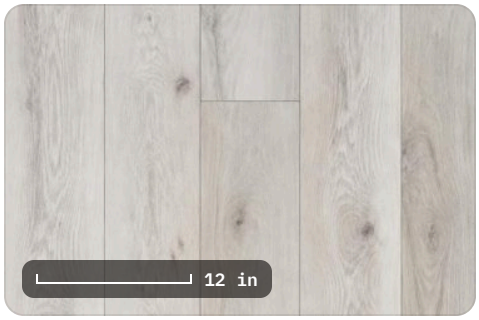
Mountain Air in a coastal room

Mountain Air from the Legacy Flooring Collection AquaProof line is a very light laminate with almost no undertone (measured from its own picture, LRV 60). Here it is with High Reflective White walls, Extra White trim, and Van Deusen Blue as the deep note, chosen by the numbers.



THE PALETTE

THE FLOOR	WALLS	TRIM	DEEP NOTE	WOOD
Mountain Air LRV 60	**High Reflective White** Sherwin-Williams SW 7757 LRV 92.7	**Extra White** Sherwin-Williams SW 7006 LRV 85.9	**Van Deusen Blue** Benjamin Moore HC-156 LRV 12	**A light natural wood** Like our Silvered Gray stain sample

WALLS, TRIM AND CABINETS

WALLS

High Reflective White

Sherwin-Williams SW 7757 · LRV 92.7 · +33 from the floor

A clean neutral (chroma 3.1) that keeps Mountain Air crisp and gray.

TRIM AND CEILINGS

Extra White

Sherwin-Williams SW 7006 · LRV 85.9 · +26 from the floor

26 points over Mountain Air in LRV, a clean white (chroma 2.6) that keeps Mountain Air crisp.

THE DEEP NOTE

Van Deusen Blue

Benjamin Moore HC-156 · LRV 12 · -48 from the floor

Deep and quiet, 48 points darker than Mountain Air in LRV, a frame for a gray floor.

Lower cabinets or an island in Van Deusen Blue, uppers and trim in Extra White. The floor at LRV 60 sits between the two (12 and 86).

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
60	82	Gray	79°

A near gray, with almost no warmth. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Mountain Air is lighter than 100 percent of the 45 laminate floors we carry, measured the same way, and warmer than 2 percent of them.

WOOD, RUGS AND METALS

A step darker: a light natural wood
About 21 points darker than Mountain Air in L* (61 against 82), far enough to read as a choice. Like our Silvered Gray stain sample.

A step lighter: black or painted pieces
Mountain Air is lighter than any wood stain we photographed (L* 82), so contrast comes from black, painted or upholstered pieces.

Tone on tone: pewter
2 in chroma, half the warmth of Mountain Air (4), and 34 points darker in L*.

Across the wheel: slate blue
Hue 259°, straight across the color wheel from the 79° of Mountain Air, softened to balance it.

Grounding: smoke
A deep note at L* 52, 30 points from the 82 of Mountain Air, so a rug keeps its edge.

Polished nickel
A bright nickel with a touch of warmth, for the gray undertone of Mountain Air (chroma 3.7).

Chrome
The brightest and coolest finish, crisp against Mountain Air at chroma 3.7.

Matte black
Black works with every undertone; beside Mountain Air at LRV 60 it gives the room its outline.

ROOM BY ROOM

- **Living room** High Reflective White walls and Extra White trim, a pewter rug in a flat weave on Mountain Air, slate blue pillows, black or painted side tables.
- **Kitchen** Extra White cabinets with an island in Van Deusen Blue, polished nickel hardware, Mountain Air underfoot.
- **Bedroom** High Reflective White walls, pewter linen, a slate blue throw, chrome on the lamps.
- **Bath** Van Deusen Blue on the vanity, Extra White walls, a smoke mat, matte black fixtures.

WHAT TO AVOID

- Walls at the lightness of Mountain Air: Palladian Blue (Benjamin Moore HC-144, LRV 60.4) sits within a point of its LRV of 60, so wall and floor would blur into one.
- Whites that lean yellow: beside Mountain Air, a near gray, they look dingy.

THE ROOM IT SUITS

At LRV 60, Mountain Air is very light: it bounces light back into the room, suits north facing rooms, basements and small rooms, and shows dark grit more than lint.

At 7.7 inches a board, Mountain Air lays about 19 boards across a 12 foot room, so the room reads open with few seams.

Mountain Air is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Water: Waterproof (the maker's word)
