Boho Beige in a modern farmhouse room

Boho Beige, from the Legacy Flooring Collection Toucan 9 in line, is a mid tone vinyl plank with a golden undertone (measured from its own picture: LRV 39). Here it is with Silver Satin walls, Alabaster trim, and Iron Ore as the deep note, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	DEEP NOTE	WOOD
Boho Beige LRV 39	**Silver Satin** Benjamin Moore OC-26 LRV 74.9	**Alabaster** Sherwin-Williams SW 7008 LRV 82.2	**Iron Ore** Sherwin-Williams SW 7069 LRV 5.6	**A warm gray brown wood** Like our Warm Gray stain sample

WALLS, TRIM AND CABINETS

WALLS
Silver Satin
Benjamin Moore OC-26 · LRV 74.9 · +36 from the floor
A soft neutral with a touch of warmth (hue 105°), so Boho Beige stays golden without turning yellow.

OR WALLS
Dover White
Sherwin-Williams SW 6385 · LRV 82.5 · +44 from the floor
A soft neutral with a touch of warmth (hue 93°), so Boho Beige stays golden without turning yellow.

TRIM AND CEILINGS
Alabaster
Sherwin-Williams SW 7008 · LRV 82.2 · +44 from the floor
44 points over Boho Beige in LRV and warm enough (chroma 5.3) to read white, not blue, beside its golden undertone.

THE DEEP NOTE
Iron Ore
Sherwin-Williams SW 7069 · LRV 5.6 · -33 from the floor
Deep and quiet, 33 points darker than Boho Beige in LRV, a frame for a golden floor.

Lower cabinets or an island in Iron Ore, uppers and trim in Alabaster. The floor at LRV 39 sits between the two (6 and 82).

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
39	69	Golden	82°

A golden undertone, warm without leaning red. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Boho Beige is lighter than 79 percent of the 1,204 vinyl floors we carry, measured the same way, and warmer than 75 percent of them.

WOOD, RUGS AND METALS

A step darker: a warm gray brown wood
About 20 points darker than Boho Beige in L* (48 against 69), far enough to read as a choice. Like our Warm Gray stain sample.

A step lighter: black or painted pieces
Boho Beige is lighter than any wood stain we photographed (L* 69), so contrast comes from black, painted or upholstered pieces.

Tone on tone: walnut brown
8 in chroma, half the warmth of Boho Beige (19), and 34 points darker in L*.

Across the wheel: storm blue
Hue 262°, straight across the color wheel from the 82° of Boho Beige, softened to balance it.

Grounding: mocha
A deep note at L* 39, 30 points from the 69 of Boho Beige, so a rug keeps its edge.

Matte black
Black works with every undertone; beside Boho Beige at LRV 39 it gives the room its outline.

Aged brass
A warm metal that agrees with the golden undertone of Boho Beige (hue 82°).

Unlacquered brass
Left unsealed, it darkens with handling to a softer warm tone beside Silver Satin walls.

ROOM BY ROOM

- **Living room** Silver Satin walls and Alabaster trim, a walnut brown rug with a mocha edge on Boho Beige, a coffee table in a warm gray brown wood.
- **Kitchen** Iron Ore on the island, Alabaster cabinets above, matte black pulls, Boho Beige underfoot.
- **Dining room** A table in a warm gray brown wood on Boho Beige, black or painted chairs, aged brass pendants.
- **Bedroom** Dover White walls, walnut brown linen, a storm blue quilt, unlacquered brass on the lamps.

WHAT TO AVOID

- Walls at the lightness of Boho Beige: Jockey Hollow Gray (Benjamin Moore HC-108, LRV 39.5) sits within a point of its LRV of 39, so wall and floor would blur into one.
- Wood that almost matches Boho Beige: a tone like our Country White sample, 4.8 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Walls that lean yellow: yellow on yellow flattens the golden undertone of Boho Beige (hue 82°).

THE ROOM IT SUITS

At LRV 39, Boho Beige is a mid tone: it holds its color in a sunny room and hides everyday dust and pet hair better than a very dark or very light floor.

At 9 inches a board, Boho Beige lays about 16 boards across a 12 foot room, so the room reads open with few seams.

Boho Beige is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 20 mil

Core: SPC, a rigid stone polymer core

Water: Waterproof (the maker's word)
