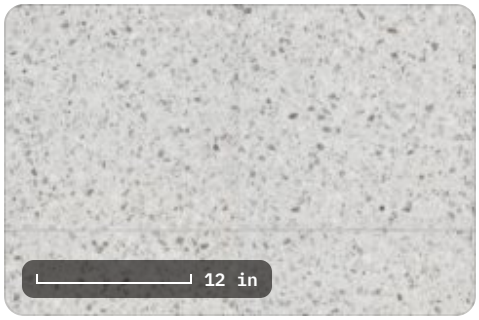
Vivara Terrazzo in a coastal room

Vivara Terrazzo from the COREtec CT Tile SPC 18 line is a very light vinyl tile with almost no undertone, with an LRV of 65 measured from its own picture. It pairs with Acacia Haze walls, Extra White trim, and Van Deusen Blue as the deep note, chosen by the numbers.



THE PALETTE

WALLS, TRIM AND CABINETS

WALLS
Acacia Haze
Sherwin-Williams SW 9132 · LRV 32.2 · -33 from the floor
A soft, cool leaning color (hue 132°) that keeps Vivara Terrazzo crisp and gray.

OR WALLS
Chantilly Lace
Benjamin Moore OC-65 · LRV 90 · +25 from the floor
A clean neutral (chroma 2.7) that keeps Vivara Terrazzo crisp and gray.

TRIM AND CEILINGS
Extra White
Sherwin-Williams SW 7006 · LRV 85.9 · +21 from the floor
21 points over Vivara Terrazzo in LRV, a clean white (chroma 2.6) that keeps Vivara Terrazzo crisp.

THE DEEP NOTE
Van Deusen Blue
Benjamin Moore HC-156 · LRV 12 · -53 from the floor
Deep and quiet, 53 points darker than Vivara Terrazzo in LRV, a frame for a gray floor.

Lower cabinets or an island in Van Deusen Blue, uppers and trim in Extra White. The floor at LRV 65 sits between the two (12 and 86).

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
65	84	Gray	102°

A near gray, with almost no warmth. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Vivara Terrazzo is lighter than 98 percent of the 1,202 vinyl floors we carry, measured the same way, and warmer than 1 percent of them.

WOOD, RUGS AND METALS

A step darker: a light natural wood
About 23 points darker than Vivara Terrazzo in L* (61 against 84), far enough to read as a choice. Like our Silvered Gray stain sample.

A step lighter: black or painted pieces
Vivara Terrazzo is lighter than any wood stain we photographed (L* 84), so contrast comes from black, painted or upholstered pieces.

Tone on tone: pewter
1 in chroma, half the warmth of Vivara Terrazzo (2), and 34 points darker in L*.

Across the wheel: slate blue
Hue 282°, straight across the color wheel from the 102° of Vivara Terrazzo, softened to balance it.

Grounding: smoke
A deep note at L* 54, 30 points from the 84 of Vivara Terrazzo, so a rug keeps its edge.

Polished nickel
A bright nickel with a touch of warmth, for the gray undertone of Vivara Terrazzo (chroma 1.5).

Chrome
The brightest and coolest finish, crisp against Vivara Terrazzo at chroma 1.5.

Matte black
Black works with every undertone; beside Vivara Terrazzo at LRV 65 it gives the room its outline.

ROOM BY ROOM

- **Living room** Acacia Haze walls and Extra White trim, a pewter rug in a flat weave on Vivara Terrazzo, slate blue pillows, black or painted side tables.
- **Kitchen** Extra White cabinets with an island in Van Deusen Blue, polished nickel hardware, Vivara Terrazzo underfoot.
- **Bedroom** Chantilly Lace walls, pewter linen, a slate blue throw, chrome on the lamps.
- **Bath** Van Deusen Blue on the vanity, Extra White walls, a smoke mat, matte black fixtures.

WHAT TO AVOID

- Walls at the lightness of Vivara Terrazzo: Gray Owl (Benjamin Moore OC-52, LRV 64.5) sits within a point of its LRV of 65, so wall and floor would blur into one.
- Whites that lean yellow: beside Vivara Terrazzo, a near gray, they look dingy.

THE ROOM IT SUITS

At LRV 65, Vivara Terrazzo is very light: it bounces light back into the room, suits north facing rooms, basements and small rooms, and shows dark grit more than lint.

At 18 inches a tile, a 12 foot room is about 8 tiles across.

Vivara Terrazzo is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 20 mil

Core: SPC, a rigid stone polymer core

Finish: UV Acrylic
