Cartwheel Oak in a warm modern room

Cartwheel Oak from the COREtec Pro Classics line is a mid tone vinyl plank with a golden undertone (LRV 23, measured from its own picture). Here it is with Agreeable Gray walls, Greek Villa trim, and Naval as the deep note, chosen by the numbers.

THE PALETTE

WALLS, TRIM AND CABINETS

WALLS
Agreeable Gray
Sherwin-Williams SW 7029 · LRV 60.4 · +37 from the floor
A soft neutral with a touch of warmth (hue 87°), so Cartwheel Oak stays golden without turning yellow.

OR WALLS
Revere Pewter
Benjamin Moore HC-172 · LRV 55.1 · +32 from the floor
A soft neutral with a touch of warmth (hue 95°), so Cartwheel Oak stays golden without turning yellow.

TRIM AND CEILINGS
Greek Villa
Sherwin-Williams SW 7551 · LRV 84.2 · +61 from the floor
61 points over Cartwheel Oak in LRV and warm enough (chroma 5.3) to read white, not blue, beside its golden undertone.

THE DEEP NOTE
Naval
Sherwin-Williams SW 6244 · LRV 4.5 · -19 from the floor
Deep and cool, about 170° around the color wheel from Cartwheel Oak and 19 points darker in LRV, so each makes the other look richer.

Lower cabinets or an island in Naval, uppers and trim in Greek Villa. The floor at LRV 23 sits between the two (5 and 84).

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
23	55	Golden	73°

A golden undertone, warm without leaning red. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Cartwheel Oak is lighter than 44 percent of the 1,206 vinyl floors we carry, measured the same way, and warmer than 72 percent of them.

WOOD, RUGS AND METALS

A step darker: a charcoal wood
About 21 points darker than Cartwheel Oak in L* (35 against 55), far enough to read as a choice. Like our Heritage Brown stain sample.

A step lighter: a pale, bleached wood
About 16 points lighter than Cartwheel Oak in L* (72 against 55). Like our Country White stain sample.

Tone on tone: oatmeal
8 in chroma, half the warmth of Cartwheel Oak (18), and 28 points lighter in L*.

Across the wheel: graphite
Hue 253°, straight across the color wheel from the 73° of Cartwheel Oak, softened to balance it.

Grounding: charcoal
A deep note at L* 25, 30 points from the 55 of Cartwheel Oak, so a rug keeps its edge.

Aged brass
A warm metal that agrees with the golden undertone of Cartwheel Oak (hue 73°).

Unlacquered brass
Left unsealed, it darkens with handling to a softer warm tone beside Agreeable Gray walls.

Matte black
Black works with every undertone; beside Cartwheel Oak at LRV 23 it gives the room its outline.

ROOM BY ROOM

- **Living room** Agreeable Gray walls and Greek Villa trim around Cartwheel Oak, an oatmeal rug with a charcoal border, a coffee table in a charcoal wood, aged brass lamps.
- **Kitchen** Naval on the island or the lower cabinets, Greek Villa uppers, unlacquered brass pulls, Cartwheel Oak underfoot.
- **Bedroom** Revere Pewter walls, bedding in oatmeal with one graphite pillow, nightstands in a pale, bleached wood.
- **Entry** A charcoal runner on Cartwheel Oak, Naval on the front door, a matte black mirror.

WHAT TO AVOID

- Walls at the lightness of Cartwheel Oak: Retreat (Sherwin-Williams SW 6207, LRV 20.9) sits 2 points from its LRV of 23, so wall and floor would blur into one.
- Wood that almost matches Cartwheel Oak: a tone like our Rustic Beige sample, 2.5 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Walls that lean yellow: yellow on yellow flattens the golden undertone of Cartwheel Oak (hue 73°).

THE ROOM IT SUITS

At LRV 23, Cartwheel Oak is a mid tone: it holds its color in a sunny room and hides everyday dust and pet hair better than a very dark or very light floor.

At 7 inches a board, Cartwheel Oak lays about 21 boards across a 12 foot room, so the room reads open with few seams.

Cartwheel Oak is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 20 mil

Core: SPC, a rigid stone polymer core

Finish: UV Acrylic
