Cloves in a modern farmhouse room

Cloves, from the Fifth and Main Symbiotic 20 line, is a mid dark vinyl plank with an amber undertone (measured from its own picture: LRV 15). It is shown with Chantilly Lace walls, Swiss Coffee trim and Upward on the cabinets, chosen by the numbers.

THE PALETTE

WALLS, TRIM AND CABINETS

WALLS
Chantilly Lace
Benjamin Moore OC-65 · LRV 90 · +75 from the floor
Its undertone leans green (hue 125°), which quiets the orange in Cloves (hue 63°) instead of echoing it.

OR WALLS
Dover White
Sherwin-Williams SW 6385 · LRV 82.5 · +67 from the floor
Its undertone leans green (hue 93°), which quiets the orange in Cloves (hue 63°) instead of echoing it.

TRIM AND CEILINGS
Swiss Coffee
Benjamin Moore OC-45 · LRV 81.9 · +67 from the floor
67 points over Cloves in LRV and warm enough (chroma 5.7) to read white, not blue, beside its amber undertone.

CABINETS
Upward
Sherwin-Williams SW 6239 · LRV 57.4 · +42 from the floor
A light color with some life in it, so cabinets float off Cloves (a 42 point step in LRV).

Cabinets in Upward or Swiss Coffee: a dark floor needs light cabinets to float above it.

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
15	46	Amber	63°

An amber undertone, warm and a little orange. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Cloves is lighter than 26 percent of the 1,206 vinyl floors we carry, measured the same way, and warmer than 87 percent of them.

WOOD, RUGS AND METALS

A step darker: a charcoal wood
About 17 points darker than Cloves in L* (29 against 46), far enough to read as a choice. Like our Ebony stain sample.

A step lighter: a light natural wood
About 15 points lighter than Cloves in L* (61 against 46). Like our Silvered Gray stain sample.

Tone on tone: putty
10 in chroma, half the warmth of Cloves (22), and 28 points lighter in L*.

Across the wheel: mist blue
Hue 243°, straight across the color wheel from the 63° of Cloves, softened to balance it.

Grounding: espresso
A deep note at L* 20, 26 points from the 46 of Cloves, so a rug keeps its edge.

Matte black
Black works with every undertone; beside Cloves at LRV 15 it gives the room its outline.

Aged brass
A warm metal that agrees with the amber undertone of Cloves (hue 63°).

Unlacquered brass
Left unsealed, it darkens with handling to a softer warm tone beside Chantilly Lace walls.

ROOM BY ROOM

- **Living room** Chantilly Lace walls and Swiss Coffee trim, a putty rug with an espresso edge on Cloves, a coffee table in a charcoal wood.
- **Kitchen** Cabinets in Upward so they float off Cloves, Swiss Coffee walls and trim, aged brass pulls.
- **Dining room** A table in a charcoal wood on Cloves, chairs in a light natural wood, aged brass pendants.
- **Bedroom** Dover White walls, putty linen, a mist blue quilt, unlacquered brass on the lamps.

WHAT TO AVOID

- Walls at the lightness of Cloves: Distance (Sherwin-Williams SW 6243, LRV 15.2) sits within a point of its LRV of 15, so wall and floor would blur into one.
- Wood that almost matches Cloves: a tone like our Nutmeg sample, 3.0 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Pink or peach beige walls: they pull more orange out of the amber undertone of Cloves (hue 63°).

THE ROOM IT SUITS

At LRV 15, Cloves is mid dark: it is at its best in a big room with good light and warm lamps, and it shows dust, pet hair and fine scratches more than a mid tone.

At 6 inches a board, Cloves lays about 24 boards across a 12 foot room.

Living spaces and bedrooms; ask us about wet rooms.

Wear layer: 20 mil

Finish: ExoGuard+®
