Coastal Pebble in a dark and moody room

Coastal Pebble from the Mullican Eloquence 4 3/8" line is a dark oak hardwood with a golden undertone (measured from its own picture: LRV 9). Here it is with Mindful Gray walls, Alabaster trim, and Upward on the cabinets, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	CABINETS	WOOD
Coastal Pebble LRV 9	**Mindful Gray** Sherwin-Williams SW 7016 LRV 47.7	**Alabaster** Sherwin-Williams SW 7008 LRV 82.2	**Upward** Sherwin-Williams SW 6239 LRV 57.4	**A charcoal wood** Like our True Black stain sample

WALLS, TRIM AND CABINETS

WALLS
Mindful Gray
Sherwin-Williams SW 7016 · LRV 47.7 · +39 from the floor
A soft neutral with a touch of warmth (hue 90°), so Coastal Pebble stays golden without turning yellow.

OR WALLS
Thunder
Benjamin Moore AF-685 · LRV 47.6 · +39 from the floor
A soft neutral with a touch of warmth (hue 92°), so Coastal Pebble stays golden without turning yellow.

TRIM AND CEILINGS
Alabaster
Sherwin-Williams SW 7008 · LRV 82.2 · +73 from the floor
73 points over Coastal Pebble in LRV and warm enough (chroma 5.3) to read white, not blue, beside its golden undertone.

CABINETS
Upward
Sherwin-Williams SW 6239 · LRV 57.4 · +48 from the floor
A light color with some life in it, so cabinets float off Coastal Pebble (a 48 point step in LRV).

Cabinets in Upward or Alabaster: a dark floor needs light cabinets to float above it.

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
9	36	Golden	83°

A golden undertone, warm without leaning red. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Coastal Pebble is lighter than 25 percent of the 1,739 hardwood floors we carry, measured the same way, and warmer than 30 percent of them.

WOOD, RUGS AND METALS

A step darker: a charcoal wood
About 15 points darker than Coastal Pebble in L* (21 against 36), far enough to read as a choice. Like our True Black stain sample.

A step lighter: a honey tone
About 16 points lighter than Coastal Pebble in L* (52 against 36). Like our Fruitwood stain sample.

Tone on tone: mushroom
8 in chroma, half the warmth of Coastal Pebble (17), and 28 points lighter in L*.

Across the wheel: mist blue
Hue 263°, straight across the color wheel from the 83° of Coastal Pebble, softened to balance it.

Grounding: fog gray
A light note at L* 81, 45 points from the 36 of Coastal Pebble, so a rug keeps its edge.

Aged brass
A warm metal that agrees with the golden undertone of Coastal Pebble (hue 83°).

Unlacquered brass
Left unsealed, it darkens with handling to a softer warm tone beside Mindful Gray walls.

Matte black
Black works with every undertone; beside Coastal Pebble at LRV 9 it gives the room its outline.

ROOM BY ROOM

- **Living room** Mindful Gray walls and Alabaster trim over Coastal Pebble, velvet in mushroom with a mist blue pillow, aged brass lamps on low.
- **Kitchen** Cabinets in Upward so they float off Coastal Pebble, Alabaster walls and trim, unlacquered brass pulls.
- **Bedroom** Thunder walls, mushroom bedding, nightstands in a honey tone, matte black on the lamps.
- **Entry** A fog gray runner on Coastal Pebble, Upward on the door, an unlacquered brass mirror.

WHAT TO AVOID

- Walls at the lightness of Coastal Pebble: Hale Navy (Benjamin Moore HC-154, LRV 8.4) sits within a point of its LRV of 9, so wall and floor would blur into one.
- Walls that lean yellow: yellow on yellow flattens the golden undertone of Coastal Pebble (hue 83°).

THE ROOM IT SUITS

At LRV 9, Coastal Pebble is dark: it is at its best in a big room with good light and warm lamps, and it shows dust, pet hair and fine scratches more than a mid tone.

At 4.38 inches a board, Coastal Pebble lays about 33 boards across a 12 foot room.

Engineered hardwood: living spaces and bedrooms on every level, kept out of full baths.

Species: Oak

Construction: Engineered oak hardwood

Finish: Aluminum Oxide Finish
