

Copano Oak in a modern farmhouse room

Copano Oak, from the COREtec Pro Classics line, is a mid tone vinyl plank with a golden undertone (measured from its own picture: LRV 24). Here it is with Simply White walls, Swiss Coffee trim and Wrought Iron as the deep note, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	DEEP NOTE	WOOD
Copano Oak LRV 24	Simply White Benjamin Moore OC-117 LRV 89.5	Swiss Coffee Benjamin Moore OC-45 LRV 81.9	Wrought Iron Benjamin Moore 2124-10 LRV 8.2	A charcoal wood Like our Heritage Brown stain sample

WALLS, TRIM AND CABINETS

- WALLS**
Simply White
 Benjamin Moore OC-117 • LRV 89.5 • +66 from the floor
 A soft neutral with a touch of warmth (hue 110°), so Copano Oak stays golden without turning yellow.
- OR WALLS**
Dover White
 Sherwin-Williams SW 6385 • LRV 82.5 • +59 from the floor
 A soft neutral with a touch of warmth (hue 93°), so Copano Oak stays golden without turning yellow.
- TRIM AND CEILINGS**
Swiss Coffee
 Benjamin Moore OC-45 • LRV 81.9 • +58 from the floor
 58 points over Copano Oak in LRV and warm enough (chroma 5.7) to read white, not blue, beside its golden undertone.
- THE DEEP NOTE**
Wrought Iron
 Benjamin Moore 2124-10 • LRV 8.2 • -16 from the floor
 Deep and quiet, 16 points darker than Copano Oak in LRV, a frame for a golden floor.
- **Matte black**
 Black works with every undertone; beside Copano Oak at LRV 24 it gives the room its outline.
- **Aged brass**
 A warm metal that agrees with the golden undertone of Copano Oak (hue 78°).
- **Unlacquered brass**
 Left unsealed, it darkens with handling to a softer warm tone beside Simply White walls.

Lower cabinets or an island in Wrought Iron, uppers and trim in Swiss Coffee. The floor at LRV 24 sits between the two (8 and 82).

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
24	56	Golden	78°

A golden undertone, warm without leaning red. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Copano Oak is lighter than 45 percent of the 1,197 vinyl floors we carry, measured the same way, and warmer than 69 percent of them.

WOOD, RUGS AND METALS

- **A step darker: a charcoal wood**
 About 21 points darker than Copano Oak in L* (35 against 56), far enough to read as a choice. Like our Heritage Brown stain sample.
- **A step lighter: a pale, bleached wood**
 About 16 points lighter than Copano Oak in L* (72 against 56). Like our Country White stain sample.
- **Tone on tone: linen**
 8 in chroma, half the warmth of Copano Oak (17), and 28 points lighter in L*.
- **Across the wheel: graphite**
 Hue 258°, straight across the color wheel from the 78° of Copano Oak, softened to balance it.
- **Grounding: charcoal**
 A deep note at L* 26, 30 points from the 56 of Copano Oak, so a rug keeps its edge.

ROOM BY ROOM

- **Living room** Simply White walls and Swiss Coffee trim, a linen rug with a charcoal edge on Copano Oak, a coffee table in a charcoal wood.
- **Kitchen** Wrought Iron on the island, Swiss Coffee cabinets above, matte black pulls, Copano Oak underfoot.
- **Dining room** A table in a charcoal wood on Copano Oak, chairs in a pale, bleached wood, aged brass pendants.
- **Bedroom** Dover White walls, linen linen, a graphite quilt, unlacquered brass on the lamps.

WHAT TO AVOID

- Walls at the lightness of Copano Oak: Retreat (Sherwin-Williams SW 6207, LRV 20.9) sits 3 points from its LRV of 24, so wall and floor would blur into one.
- Wood that almost matches Copano Oak: a tone like our Rustic Beige sample, 4.3 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Walls that lean yellow: yellow on yellow flattens the golden undertone of Copano Oak (hue 78°).

THE ROOM IT SUITS

At LRV 24, Copano Oak is a mid tone: it holds its color in a sunny room and hides everyday dust and pet hair better than a very dark or very light floor.

At 7 inches a board, Copano Oak lays about 21 boards across a 12 foot room, so the room reads open with few seams.

Copano Oak is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 20 mil

Core: SPC, a rigid stone polymer core

Finish: UV Acrylic
