Dusty Dune in a modern farmhouse room

Dusty Dune, from the Legacy Flooring Collection Toucan 7 in line, is a mid tone vinyl plank with a golden undertone (measured from its own picture: LRV 37). Here it is with Pale Oak walls, Alabaster trim and Urbane Bronze for a deep note, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	DEEP NOTE	WOOD
Dusty Dune LRV 37	**Pale Oak** Benjamin Moore OC-20 LRV 68.6	**Alabaster** Sherwin-Williams SW 7008 LRV 82.2	**Urbane Bronze** Sherwin-Williams SW 7048 LRV 8.1	**A warm gray brown wood** Like our Warm Gray stain sample

WALLS, TRIM AND CABINETS

WALLS
Pale Oak
Benjamin Moore OC-20 · LRV 68.6 · +32 from the floor
A soft neutral with a touch of warmth (hue 95°), so Dusty Dune stays golden without turning yellow.

OR WALLS
Dover White
Sherwin-Williams SW 6385 · LRV 82.5 · +46 from the floor
A soft neutral with a touch of warmth (hue 93°), so Dusty Dune stays golden without turning yellow.

TRIM AND CEILINGS
Alabaster
Sherwin-Williams SW 7008 · LRV 82.2 · +45 from the floor
45 points over Dusty Dune in LRV and warm enough (chroma 5.3) to read white, not blue, beside its golden undertone.

THE DEEP NOTE
Urbane Bronze
Sherwin-Williams SW 7048 · LRV 8.1 · -29 from the floor
Deep and quiet, 29 points darker than Dusty Dune in LRV, a frame for a golden floor.

Lower cabinets or an island in Urbane Bronze, uppers and trim in Alabaster. The floor at LRV 37 sits between the two (8 and 82).

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
37	67	Golden	84°

A golden undertone, warm without leaning red. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Dusty Dune is lighter than 76 percent of the 1,204 vinyl floors we carry, measured the same way, and warmer than 78 percent of them.

WOOD, RUGS AND METALS

A step darker: a warm gray brown wood
About 19 points darker than Dusty Dune in L* (48 against 67), far enough to read as a choice. Like our Warm Gray stain sample.

A step lighter: black or painted pieces
Dusty Dune is lighter than any wood stain we photographed (L* 67), so contrast comes from black, painted or upholstered pieces.

Tone on tone: walnut brown
9 in chroma, half the warmth of Dusty Dune (19), and 34 points darker in L*.

Across the wheel: storm blue
Hue 264°, straight across the color wheel from the 84° of Dusty Dune, softened to balance it.

Grounding: mocha
A deep note at L* 37, 30 points from the 67 of Dusty Dune, so a rug keeps its edge.

Matte black
Black works with every undertone; beside Dusty Dune at LRV 37 it gives the room its outline.

Aged brass
A warm metal that agrees with the golden undertone of Dusty Dune (hue 84°).

Unlacquered brass
Left unsealed, it darkens with handling to a softer warm tone beside Pale Oak walls.

ROOM BY ROOM

- **Living room** Pale Oak walls and Alabaster trim, a walnut brown rug with a mocha edge on Dusty Dune, a coffee table in a warm gray brown wood.
- **Kitchen** Urbane Bronze on the island, Alabaster cabinets above, matte black pulls, Dusty Dune underfoot.
- **Dining room** A table in a warm gray brown wood on Dusty Dune, black or painted chairs, aged brass pendants.
- **Bedroom** Dover White walls, walnut brown linen, a storm blue quilt, unlacquered brass on the lamps.

WHAT TO AVOID

- Walls at the lightness of Dusty Dune: Jockey Hollow Gray (Benjamin Moore HC-108, LRV 39.5) sits 3 points from its LRV of 37, so wall and floor would blur into one.
- Wood that almost matches Dusty Dune: a tone like our Country White sample, 6.3 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Walls that lean yellow: yellow on yellow flattens the golden undertone of Dusty Dune (hue 84°).

THE ROOM IT SUITS

At LRV 37, Dusty Dune is a mid tone: it holds its color in a sunny room and hides everyday dust and pet hair better than a very dark or very light floor.

At 7.2 inches a board, Dusty Dune lays about 20 boards across a 12 foot room, so the room reads open with few seams.

Dusty Dune is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 20 mil

Core: SPC, a rigid stone polymer core

Water: Waterproof (the maker's word)
