

Fairhaven Oak in a warm modern room

Fairhaven Oak from the COREtec Pro Premium line is a mid dark vinyl plank with a golden undertone (LRV 18, measured from its own picture). Here it is with Agreeable Gray walls, Alabaster trim, and Upward on the cabinets, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	CABINETS	WOOD
Fairhaven Oak LRV 18	Agreeable Gray Sherwin-Williams SW 7029 LRV 60.4	Alabaster Sherwin-Williams SW 7008 LRV 82.2	Upward Sherwin-Williams SW 6239 LRV 57.4	A charcoal wood Like our Ebony stain sample

WALLS, TRIM AND CABINETS

- WALLS**
Agreeable Gray
 Sherwin-Williams SW 7029 · LRV 60.4 · +43 from the floor
 A soft neutral with a touch of warmth (hue 87°), so Fairhaven Oak stays golden without turning yellow.
- OR WALLS**
Revere Pewter
 Benjamin Moore HC-172 · LRV 55.1 · +37 from the floor
 A soft neutral with a touch of warmth (hue 95°), so Fairhaven Oak stays golden without turning yellow.
- TRIM AND CEILINGS**
Alabaster
 Sherwin-Williams SW 7008 · LRV 82.2 · +64 from the floor
 64 points over Fairhaven Oak in LRV and warm enough (chroma 5.3) to read white, not blue, beside its golden undertone.
- CABINETS**
Upward
 Sherwin-Williams SW 6239 · LRV 57.4 · +40 from the floor
 A light color with some life in it, so cabinets float off Fairhaven Oak (a 40 point step in LRV).

Cabinets in Upward or Alabaster: a dark floor needs light cabinets to float above it.

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
18	49	Golden	68°

A golden undertone, warm without leaning red. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Fairhaven Oak is lighter than 31 percent of the 1,198 vinyl floors we carry, measured the same way, and warmer than 83 percent of them.

WOOD, RUGS AND METALS

- **A step darker: a charcoal wood**
 About 20 points darker than Fairhaven Oak in L* (29 against 49), far enough to read as a choice. Like our Ebony stain sample.
- **A step lighter: a pale, bleached wood**
 About 18 points lighter than Fairhaven Oak in L* (67 against 49). Like our Natural stain sample.
- **Tone on tone: putty**
 9 in chroma, half the warmth of Fairhaven Oak (21), and 28 points lighter in L*.
- **Across the wheel: mist blue**
 Hue 248°, straight across the color wheel from the 68° of Fairhaven Oak, softened to balance it.
- **Grounding: espresso**
 A deep note at L* 20, 29 points from the 49 of Fairhaven Oak, so a rug keeps its edge.

- **Aged brass**
 A warm metal that agrees with the golden undertone of Fairhaven Oak (hue 68°).
- **Unlacquered brass**
 Left unsealed, it darkens with handling to a softer warm tone beside Agreeable Gray walls.
- **Matte black**
 Black works with every undertone; beside Fairhaven Oak at LRV 18 it gives the room its outline.

ROOM BY ROOM

- **Living room** Agreeable Gray walls and Alabaster trim around Fairhaven Oak, a putty rug with an espresso border, a coffee table in a charcoal wood, aged brass lamps.
- **Kitchen** Cabinets in Upward so they float off Fairhaven Oak, Alabaster walls and trim, unlacquered brass pulls.
- **Bedroom** Revere Pewter walls, bedding in putty with one mist blue pillow, nightstands in a pale, bleached wood.
- **Entry** An espresso runner on Fairhaven Oak, Upward on the front door, a matte black mirror.

WHAT TO AVOID

- Walls at the lightness of Fairhaven Oak: Gauntlet Gray (Sherwin-Williams SW 7019, LRV 17.4) sits within a point of its LRV of 18, so wall and floor would blur into one.
- Wood that almost matches Fairhaven Oak: a tone like our Fruitwood sample, 4.0 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Walls that lean yellow: yellow on yellow flattens the golden undertone of Fairhaven Oak (hue 68°).

THE ROOM IT SUITS

At LRV 18, Fairhaven Oak is mid dark: it is at its best in a big room with good light and warm lamps, and it shows dust, pet hair and fine scratches more than a mid tone.

At 7 inches a board, Fairhaven Oak lays about 21 boards across a 12 foot room, so the room reads open with few seams.

Fairhaven Oak is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 20 mil

Core: SPC, a rigid stone polymer core

Finish: UV Acrylic
