

Glistening Sand in a Japandi room

Glistening Sand, from the Legacy Flooring Collection Coastal line, is a mid tone vinyl plank with a soft greige undertone (measured from its own picture: LRV 24). Here it is with Worldly Gray walls, Alabaster trim, and Black Fox as the deep note, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	DEEP NOTE	WOOD
Glistening Sand LRV 24	Worldly Gray Sherwin-Williams SW 7043 LRV 57.2	Alabaster Sherwin-Williams SW 7008 LRV 82.2	Black Fox Sherwin-Williams SW 7020 LRV 6.7	A charcoal wood Like our Heritage Brown stain sample

WALLS, TRIM AND CABINETS

WALLS

Worldly Gray

Sherwin-Williams SW 7043 · LRV 57.2 · +33 from the floor

A warm white or greige in the same soft family as Glistening Sand (hue 82° against its 98°).

OR WALLS

Revere Pewter

Benjamin Moore HC-172 · LRV 55.1 · +31 from the floor

A warm white or greige in the same soft family as Glistening Sand (hue 95° against its 98°).

TRIM AND CEILINGS

Alabaster

Sherwin-Williams SW 7008 · LRV 82.2 · +58 from the floor

58 points over Glistening Sand in LRV and warm enough (chroma 5.3) to read white, not blue, beside its greige undertone.

THE DEEP NOTE

Black Fox

Sherwin-Williams SW 7020 · LRV 6.7 · -17 from the floor

Deep and quiet, 17 points darker than Glistening Sand in LRV, a frame for a greige floor.

Lower cabinets or an island in Black Fox, uppers and trim in Alabaster.
The floor at LRV 24 sits between the two (7 and 82).

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
24	56	Greige	98°

A greige: soft gray with a little warmth. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Glistening Sand is lighter than 45 percent of the 1,197 vinyl floors we carry, measured the same way, and warmer than 15 percent of them.

WOOD, RUGS AND METALS

**A step darker: a charcoal wood**

About 21 points darker than Glistening Sand in L* (35 against 56), far enough to read as a choice. Like our Heritage Brown stain sample.

**A step lighter: a pale, bleached wood**

About 16 points lighter than Glistening Sand in L* (72 against 56). Like our Country White stain sample.

**Tone on tone: fog gray**

3 in chroma, half the warmth of Glistening Sand (7), and 28 points lighter in L*.

**Across the wheel: graphite**

Hue 278°, straight across the color wheel from the 98° of Glistening Sand, softened to balance it.

**Grounding: charcoal**

A deep note at L* 26, 30 points from the 56 of Glistening Sand, so a rug keeps its edge.

**Matte black**

Black works with every undertone; beside Glistening Sand at LRV 24 it gives the room its outline.

**Champagne bronze**

A warm metal that agrees with the greige undertone of Glistening Sand (hue 98°).

**Brushed nickel**

A soft satin nickel, quieter than chrome, for the greige of Glistening Sand.

ROOM BY ROOM

- **Living room** Worldly Gray walls and Alabaster trim, a low table in a pale, bleached wood on Glistening Sand, a fog gray rug, one graphite cushion.
- **Kitchen** Alabaster cabinets, Black Fox on the island or one wall, matte black pulls, Glistening Sand underfoot.
- **Bedroom** Revere Pewter walls, a low bed in a charcoal wood, fog gray linen, champagne bronze in small doses.
- **Entry** A bench in a pale, bleached wood, a charcoal mat on Glistening Sand, brushed nickel hooks.

WHAT TO AVOID

- Walls at the lightness of Glistening Sand: Retreat (Sherwin-Williams SW 6207, LRV 20.9) sits 3 points from its LRV of 24, so wall and floor would blur into one.
- Stark blue whites everywhere: a greige floor like Glistening Sand turns muddy beside them. Keep the whites a little warm.

THE ROOM IT SUITS

At LRV 24, Glistening Sand is a mid tone: it holds its color in a sunny room and hides everyday dust and pet hair better than a very dark or very light floor.

At 9.06 inches a board, Glistening Sand lays about 16 boards across a 12 foot room, so the room reads open with few seams.

Glistening Sand is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Core: SPC, a rigid stone polymer core

Water: Waterproof (the maker's word)
