Hickory Natural in a modern farmhouse room

Hickory Natural from the Legacy Flooring Collection Toucan 9 in line is a midtone vinyl plank with a golden undertone (measured from its own picture: LRV 38). Here it is with Classic Gray walls, Swiss Coffee trim, and Gauntlet Gray as the deep note, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	DEEP NOTE	WOOD
Hickory Natural LRV 38	**Classic Gray** Benjamin Moore OC-23 LRV 73.7	**Swiss Coffee** Benjamin Moore OC-45 LRV 81.9	**Gauntlet Gray** Sherwin-Williams SW 7019 LRV 17.4	**A warm gray brown wood** Like our Warm Gray stain sample

WALLS, TRIM AND CABINETS

WALLS
Classic Gray
Benjamin Moore OC-23 · LRV 73.7 · +36 from the floor
A soft neutral with a touch of warmth (hue 97°), so Hickory Natural stays golden without turning yellow.

OR WALLS
Dover White
Sherwin-Williams SW 6385 · LRV 82.5 · +45 from the floor
A soft neutral with a touch of warmth (hue 93°), so Hickory Natural stays golden without turning yellow.

TRIM AND CEILINGS
Swiss Coffee
Benjamin Moore OC-45 · LRV 81.9 · +44 from the floor
44 points over Hickory Natural in LRV and warm enough (chroma 5.7) to read white, not blue, beside its golden undertone.

THE DEEP NOTE
Gauntlet Gray
Sherwin-Williams SW 7019 · LRV 17.4 · -20 from the floor
Deep and quiet, 20 points darker than Hickory Natural in LRV, a frame for a golden floor.

Lower cabinets or an island in Gauntlet Gray, uppers and trim in Swiss Coffee. The floor at LRV 38 sits between the two (17 and 82).

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
38	68	Golden	75°

A golden undertone, warm without leaning red. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Hickory Natural is lighter than 77 percent of the 1,204 vinyl floors we carry, measured the same way, and warmer than 77 percent of them.

WOOD, RUGS AND METALS

A step darker: a warm gray brown wood
About 20 points darker than Hickory Natural in L* (48 against 68), far enough to read as a choice. Like our Warm Gray stain sample.

A step lighter: black or painted pieces
Hickory Natural is lighter than any wood stain we photographed (L* 68), so contrast comes from black, painted or upholstered pieces.

Tone on tone: walnut brown
9 in chroma, half the warmth of Hickory Natural (19), and 34 points darker in L*.

Across the wheel: storm blue
Hue 255°, straight across the color wheel from the 75° of Hickory Natural, softened to balance it.

Grounding: mocha
A deep note at L* 38, 30 points from the 68 of Hickory Natural, so a rug keeps its edge.

Matte black
Black works with every undertone; beside Hickory Natural at LRV 38 it gives the room its outline.

Aged brass
A warm metal that agrees with the golden undertone of Hickory Natural (hue 75°).

Unlacquered brass
Left unsealed, it darkens with handling to a softer warm tone beside Classic Gray walls.

ROOM BY ROOM

- **Living room** Classic Gray walls and Swiss Coffee trim, a walnut brown rug with a mocha edge on Hickory Natural, a coffee table in a warm gray brown wood.
- **Kitchen** Gauntlet Gray on the island, Swiss Coffee cabinets above, matte black pulls, Hickory Natural underfoot.
- **Dining room** A table in a warm gray brown wood on Hickory Natural, black or painted chairs, aged brass pendants.
- **Bedroom** Dover White walls, walnut brown linen, a storm blue quilt, unlacquered brass on the lamps.

WHAT TO AVOID

- Walls at the lightness of Hickory Natural: Jockey Hollow Gray (Benjamin Moore HC-108, LRV 39.5) sits 2 points from its LRV of 38, so wall and floor would blur into one.
- Wood that almost matches Hickory Natural: a tone like our Country White sample, 3.8 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Walls that lean yellow: yellow on yellow flattens the golden undertone of Hickory Natural (hue 75°).

THE ROOM IT SUITS

At LRV 38, Hickory Natural is a mid tone: it holds its color in a sunny room and hides everyday dust and pet hair better than a very dark or very light floor.

At 9 inches a board, Hickory Natural lays about 16 boards across a 12 foot room, so the room reads open with few seams.

Hickory Natural is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 20 mil

Core: SPC, a rigid stone polymer core

Water: Waterproof (the maker's word)
