Light Maple in a dark and moody room

Light Maple, from the Robbins Timber Legends 7-1/2" Red Maple line, is a dark maple hardwood with an amber undertone (measured from its own picture: LRV 8). Here it is with Coventry Gray walls, Swiss Coffee trim, and Upward on the cabinets, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	CABINETS	WOOD
Light Maple	**Coventry Gray**	**Swiss Coffee**	**Upward**	**A honey tone**

WALLS, TRIM AND CABINETS

WALLS
Coventry Gray
Benjamin Moore HC-169 · LRV 48.2 · +40 from the floor
Its undertone leans green (hue 129°), which quiets the orange in Light Maple (hue 65°) instead of echoing it.

OR WALLS
Repose Gray
Sherwin-Williams SW 7015 · LRV 58.2 · +50 from the floor
Its undertone leans green (hue 97°), which quiets the orange in Light Maple (hue 65°) instead of echoing it.

TRIM AND CEILINGS
Swiss Coffee
Benjamin Moore OC-45 · LRV 81.9 · +74 from the floor
74 points over Light Maple in LRV and warm enough (chroma 5.7) to read white, not blue, beside its amber undertone.

CABINETS
Upward
Sherwin-Williams SW 6239 · LRV 57.4 · +49 from the floor
A light color with some life in it, so cabinets float off Light Maple (a 49 point step in LRV).

Cabinets in Upward or Swiss Coffee: a dark floor needs light cabinets to float above it.

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
8	34	Amber	65°

An amber undertone, warm and a little orange. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Light Maple is lighter than 21 percent of the 1,739 hardwood floors we carry, measured the same way, and warmer than 81 percent of them.

WOOD, RUGS AND METALS

A step lighter: a honey tone
About 17 points lighter than Light Maple in L* (51 against 34). Like our Golden Oak stain sample.

Tone on tone: mushroom
14 in chroma, half the warmth of Light Maple (31), and 28 points lighter in L*.

Across the wheel: eucalyptus
Hue 245°, straight across the color wheel from the 65° of Light Maple, softened to balance it.

Grounding: blush
A light note at L* 79, 45 points from the 34 of Light Maple, so a rug keeps its edge.

Aged brass
A warm metal that agrees with the amber undertone of Light Maple (hue 65°).

Unlacquered brass
Left unsealed, it darkens with handling to a softer warm tone beside Coventry Gray walls.

Matte black
Black works with every undertone; beside Light Maple at LRV 8 it gives the room its outline.

ROOM BY ROOM

- **Living room** Coventry Gray walls and Swiss Coffee trim over Light Maple, velvet in mushroom with a eucalyptus pillow, aged brass lamps on low.
- **Kitchen** Cabinets in Upward so they float off Light Maple, Swiss Coffee walls and trim, unlacquered brass pulls.
- **Bedroom** Repose Gray walls, mushroom bedding, nightstands in a honey tone, matte black on the lamps.
- **Entry** A blush runner on Light Maple, Upward on the door, an unlacquered brass mirror.

WHAT TO AVOID

- Walls at the lightness of Light Maple: Urbane Bronze (Sherwin-Williams SW 7048, LRV 8.1) sits within a point of its LRV of 8, so wall and floor would blur into one.
- Wood that almost matches Light Maple: a tone like our Chestnut sample, 6.3 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Pink or peach beige walls: they pull more orange out of the amber undertone of Light Maple (hue 65°).

THE ROOM IT SUITS

At LRV 8, Light Maple is dark: it is at its best in a big room with good light and warm lamps, and it shows dust, pet hair and fine scratches more than a mid tone.

At 7.5 inches a board, Light Maple lays about 20 boards across a 12 foot room, so the room reads open with few seams.

Engineered hardwood: living spaces and bedrooms on every level, kept out of full baths.

Hardness: Hard maple: Janka 1,450 lbf

Construction: Engineered hardwood

Finish: Urethane
