Lucent Oak in a modern farmhouse room

Lucent Oak, from the COREtec Pro Plus Enhanced Planks line, is a mid tone vinyl plank with a golden undertone (measured from its own picture: LRV 35). Here it is paired with Pale Oak walls, Swiss Coffee trim, and Iron Ore as the deep note, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	DEEP NOTE	WOOD
Lucent Oak LRV 35	**Pale Oak** Benjamin Moore OC-20 LRV 68.6	**Swiss Coffee** Benjamin Moore OC-45 LRV 81.9	**Iron Ore** Sherwin-Williams SW 7069 LRV 5.6	**A smoky gray brown wood** Like our Dark Gray stain sample

WALLS, TRIM AND CABINETS

WALLS
Pale Oak
Benjamin Moore OC-20 · LRV 68.6 · +34 from the floor
A soft neutral with a touch of warmth (hue 95°), so Lucent Oak stays golden without turning yellow.

OR WALLS
Dover White
Sherwin-Williams SW 6385 · LRV 82.5 · +48 from the floor
A soft neutral with a touch of warmth (hue 93°), so Lucent Oak stays golden without turning yellow.

TRIM AND CEILINGS
Swiss Coffee
Benjamin Moore OC-45 · LRV 81.9 · +47 from the floor
47 points over Lucent Oak in LRV and warm enough (chroma 5.7) to read white, not blue, beside its golden undertone.

THE DEEP NOTE
Iron Ore
Sherwin-Williams SW 7069 · LRV 5.6 · -29 from the floor
Deep and quiet, 29 points darker than Lucent Oak in LRV, a frame for a golden floor.

Lower cabinets or an island in Iron Ore, uppers and trim in Swiss Coffee. The floor at LRV 35 sits between the two (6 and 82).

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
35	66	Golden	70°

A golden undertone, warm without leaning red. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Lucent Oak is lighter than 73 percent of the 1,202 vinyl floors we carry, measured the same way, and warmer than 73 percent of them.

WOOD, RUGS AND METALS

A step darker: a smoky gray brown wood
About 20 points darker than Lucent Oak in L* (45 against 66), far enough to read as a choice. Like our Dark Gray stain sample.

A step lighter: black or painted pieces
Lucent Oak is lighter than any wood stain we photographed (L* 66), so contrast comes from black, painted or upholstered pieces.

Tone on tone: walnut brown
8 in chroma, half the warmth of Lucent Oak (18), and 34 points darker in L*.

Across the wheel: storm blue
Hue 250°, straight across the color wheel from the 70° of Lucent Oak, softened to balance it.

Grounding: mocha
A deep note at L* 36, 30 points from the 66 of Lucent Oak, so a rug keeps its edge.

Matte black
Black works with every undertone; beside Lucent Oak at LRV 35 it gives the room its outline.

Aged brass
A warm metal that agrees with the golden undertone of Lucent Oak (hue 70°).

Unlacquered brass
Left unsealed, it darkens with handling to a softer warm tone beside Pale Oak walls.

ROOM BY ROOM

- **Living room** Pale Oak walls and Swiss Coffee trim, a walnut brown rug with a mocha edge on Lucent Oak, a coffee table in a smoky gray brown wood.
- **Kitchen** Iron Ore on the island, Swiss Coffee cabinets above, matte black pulls, Lucent Oak underfoot.
- **Dining room** A table in a smoky gray brown wood on Lucent Oak, black or painted chairs, aged brass pendants.
- **Bedroom** Dover White walls, walnut brown linen, a storm blue quilt, unlacquered brass on the lamps.

WHAT TO AVOID

- Walls at the lightness of Lucent Oak: Debonair (Sherwin-Williams SW 9139, LRV 33.9) sits within a point of its LRV of 35, so wall and floor would blur into one.
- Wood that almost matches Lucent Oak: a tone like our Silvered Gray sample, 3.9 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Walls that lean yellow: yellow on yellow flattens the golden undertone of Lucent Oak (hue 70°).

THE ROOM IT SUITS

At LRV 35, Lucent Oak is a mid tone: it holds its color in a sunny room and hides everyday dust and pet hair better than a very dark or very light floor.

At 7 inches a board, Lucent Oak lays about 21 boards across a 12 foot room, so the room reads open with few seams.

Lucent Oak is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 20 mil

Core: SPC, a rigid stone polymer core

Finish: UV Acrylic
