

Mystic Oak in a dark and moody room

Mystic Oak from the Legacy Flooring Collection Toucan 7 in line is a very dark vinyl plank with almost no undertone, measured from its own picture, LRV 3. Here it is with October Mist walls, Chantilly Lace trim and High Reflective White on the cabinets, chosen by the numbers.

THE PALETTE

WALLS, TRIM AND CABINETS

WALLS

October Mist

Benjamin Moore 1495 · LRV 46.5 · +44 from the floor

A soft, cool leaning color (hue 114°) that keeps Mystic Oak crisp and gray.

OR WALLS

Clary Sage

Sherwin-Williams SW 6178 · LRV 41 · +38 from the floor

A soft, cool leaning color (hue 111°) that keeps Mystic Oak crisp and gray.

TRIM AND CEILINGS

Chantilly Lace

Benjamin Moore OC-65 · LRV 90 · +87 from the floor

87 points over Mystic Oak in LRV, a clean white (chroma 2.7) that keeps Mystic Oak crisp.

CABINETS

High Reflective White

Sherwin-Williams SW 7757 · LRV 92.7 · +90 from the floor

A light color with some life in it, so cabinets float off Mystic Oak (a 90 point step in LRV).

Cabinets in High Reflective White or Chantilly Lace: a dark floor needs light cabinets to float above it.

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
3	20	Gray	78°

A near gray, with almost no warmth. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Mystic Oak is lighter than 1 percent of the 1,197 vinyl floors we carry, measured the same way, and warmer than 6 percent of them.

WOOD, RUGS AND METALS

**A step lighter: a charcoal wood**

About 15 points lighter than Mystic Oak in L* (35 against 20). Like our Heritage Brown stain sample.

**Tone on tone: pewter**

2 in chroma, half the warmth of Mystic Oak (4), and 28 points lighter in L*.

**Across the wheel: slate blue**

Hue 258°, straight across the color wheel from the 78° of Mystic Oak, softened to balance it.

**Grounding: stone gray**

A light note at L* 65, 45 points from the 20 of Mystic Oak, so a rug keeps its edge.

**Aged brass**

A warm metal that agrees with the warm pieces in the room.

**Polished nickel**

A bright nickel with a touch of warmth, for the gray undertone of Mystic Oak (chroma 3.8).

**Chrome**

The brightest and coolest finish, crisp against Mystic Oak at chroma 3.8.

ROOM BY ROOM

- **Living room** October Mist walls and Chantilly Lace trim over Mystic Oak, velvet in pewter with a slate blue pillow, aged brass lamps on low.
- **Kitchen** Cabinets in High Reflective White so they float off Mystic Oak, Chantilly Lace walls and trim, polished nickel pulls.
- **Bedroom** Clary Sage walls, pewter bedding, nightstands in a charcoal wood, chrome on the lamps.
- **Entry** A stone gray runner on Mystic Oak, High Reflective White on the door, a polished nickel mirror.

WHAT TO AVOID

- Walls at the lightness of Mystic Oak: Tricorn Black (Sherwin-Williams SW 6258, LRV 2.8) sits within a point of its LRV of 3, so wall and floor would blur into one.
- Wood that almost matches Mystic Oak: a tone like our True Black sample, 5.0 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Whites that lean yellow: beside Mystic Oak, a near gray, they look dingy.

THE ROOM IT SUITS

At LRV 3, Mystic Oak is very dark: it is at its best in a big room with good light and warm lamps, and it shows dust, pet hair and fine scratches more than a mid tone.

At 7.2 inches a board, Mystic Oak lays about 20 boards across a 12 foot room, so the room reads open with few seams.

Mystic Oak is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 20 mil**Core:** SPC, a rigid stone polymer core**Water:** Waterproof (the maker's word)
