Pavestone in a Japandi room

Pavestone, from the Shaw Floors Pantheon HD+ NATURAL BEVEL line, is a mid tone vinyl plank with a soft greige undertone (measured from its own picture: LRV 31). We paired it with Modern Gray walls, Alabaster trim and Sage Green Light as the deep note, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	DEEP NOTE	WOOD
Pavestone	**Modern Gray**	**Alabaster**	**Sage Green Light**	**A mid brown wood**
LRV 31	Sherwin-Williams SW 7632 LRV 62.5	Sherwin-Williams SW 7008 LRV 82.2	Sherwin-Williams SW 2851 LRV 16.1	Like our Aged Barrel stain sample

WALLS, TRIM AND CABINETS

WALLS
Modern Gray
Sherwin-Williams SW 7632 · LRV 62.5 · +31 from the floor
A warm white or greige in the same soft family as Pavestone (hue 82° against its 75°).

OR WALLS
Edgecomb Gray
Benjamin Moore HC-173 · LRV 63.1 · +32 from the floor
A warm white or greige in the same soft family as Pavestone (hue 94° against its 75°).

TRIM AND CEILINGS
Alabaster
Sherwin-Williams SW 7008 · LRV 82.2 · +51 from the floor
51 points over Pavestone in LRV and warm enough (chroma 5.3) to read white, not blue, beside its greige undertone.

THE DEEP NOTE
Sage Green Light
Sherwin-Williams SW 2851 · LRV 16.1 · -15 from the floor
Deep and quiet, 15 points darker than Pavestone in LRV, a frame for a greige floor.

Lower cabinets or an island in Sage Green Light, uppers and trim in Alabaster. The floor at LRV 31 sits between the two (16 and 82).

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
31	63	Greige	75°

A greige: soft gray with a little warmth. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Pavestone is lighter than 65 percent of the 1,206 vinyl floors we carry, measured the same way, and warmer than 34 percent of them.

WOOD, RUGS AND METALS

A step darker: a mid brown wood
About 21 points darker than Pavestone in L* (42 against 63), far enough to read as a choice. Like our Aged Barrel stain sample.

A step lighter: black or painted pieces
Pavestone is lighter than any wood stain we photographed (L* 63), so contrast comes from black, painted or upholstered pieces.

Tone on tone: charcoal
5 in chroma, half the warmth of Pavestone (11), and 34 points darker in L*.

Across the wheel: storm blue
Hue 255°, straight across the color wheel from the 75° of Pavestone, softened to balance it.

Grounding: graphite
A deep note at L* 33, 30 points from the 63 of Pavestone, so a rug keeps its edge.

Matte black
Black works with every undertone; beside Pavestone at LRV 31 it gives the room its outline.

Champagne bronze
A warm metal that agrees with the greige undertone of Pavestone (hue 75°).

Brushed nickel
A soft satin nickel, quieter than chrome, for the greige of Pavestone.

ROOM BY ROOM

- **Living room** Modern Gray walls and Alabaster trim, black or painted a low table on Pavestone, a charcoal rug, one storm blue cushion.
- **Kitchen** Alabaster cabinets, Sage Green Light on the island or one wall, matte black pulls, Pavestone underfoot.
- **Bedroom** Edgecomb Gray walls, a low bed in a mid brown wood, charcoal linen, champagne bronze in small doses.
- **Entry** Black or painted a bench, a graphite mat on Pavestone, brushed nickel hooks.

WHAT TO AVOID

- Walls at the lightness of Pavestone: Evergreen Fog (Sherwin-Williams SW 9130, LRV 30.4) sits within a point of its LRV of 31, so wall and floor would blur into one.
- Wood that almost matches Pavestone: a tone like our Silvered Gray sample, 6.3 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Stark blue whites everywhere: a greige floor like Pavestone turns muddy beside them. Keep the whites a little warm.

THE ROOM IT SUITS

At LRV 31, Pavestone is a mid tone: it holds its color in a sunny room and hides everyday dust and pet hair better than a very dark or very light floor.

At 7 inches a board, Pavestone lays about 21 boards across a 12 foot room, so the room reads open with few seams.

Pavestone is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 20 mil

Core: WPC, a wood plastic composite core

Finish: ScufResist®
