Pearl Cove in a dark and moody room

Pearl Cove, from the Legacy Flooring Collection Coastal line, is a dark vinyl plank with a soft greige undertone (measured from its own picture: LRV 8). Here it is with Mindful Gray walls, Alabaster trim and Simply White on the cabinets, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	CABINETS	WOOD
Pearl Cove LRV 8	**Mindful Gray** Sherwin-Williams SW 7016 LRV 47.7	**Alabaster** Sherwin-Williams SW 7008 LRV 82.2	**Simply White** Benjamin Moore OC-117 LRV 89.5	**A warm gray brown wood** Like our Warm Gray stain sample

WALLS, TRIM AND CABINETS

WALLS
Mindful Gray
Sherwin-Williams SW 7016 · LRV 47.7 · +40 from the floor
A warm white or greige in the same soft family as Pearl Cove (hue 90° against its 85°).

OR WALLS
Thunder
Benjamin Moore AF-685 · LRV 47.6 · +40 from the floor
A warm white or greige in the same soft family as Pearl Cove (hue 92° against its 85°).

TRIM AND CEILINGS
Alabaster
Sherwin-Williams SW 7008 · LRV 82.2 · +75 from the floor
75 points over Pearl Cove in LRV and warm enough (chroma 5.3) to read white, not blue, beside its greige undertone.

CABINETS
Simply White
Benjamin Moore OC-117 · LRV 89.5 · +82 from the floor
A light color with some life in it, so cabinets float off Pearl Cove (a 82 point step in LRV).

Cabinets in Simply White or Alabaster: a dark floor needs light cabinets to float above it.

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
8	33	Greige	85°

A greige: soft gray with a little warmth. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Pearl Cove is lighter than 5 percent of the 1,197 vinyl floors we carry, measured the same way, and warmer than 22 percent of them.

WOOD, RUGS AND METALS

A step lighter: a warm gray brown wood
About 15 points lighter than Pearl Cove in L* (48 against 33). Like our Warm Gray stain sample.

Tone on tone: smoke
4 in chroma, half the warmth of Pearl Cove (8), and 28 points lighter in L*.

Across the wheel: slate blue
Hue 265°, straight across the color wheel from the 85° of Pearl Cove, softened to balance it.

Grounding: fog gray
A light note at L* 78, 45 points from the 33 of Pearl Cove, so a rug keeps its edge.

Aged brass
A warm metal that agrees with the greige undertone of Pearl Cove (hue 85°).

Champagne bronze
A paler warm metal, quieter than brass beside Mindful Gray and Alabaster.

Brushed nickel
A soft satin nickel, quieter than chrome, for the greige of Pearl Cove.

ROOM BY ROOM

- **Living room** Mindful Gray walls and Alabaster trim over Pearl Cove, velvet in smoke with a slate blue pillow, aged brass lamps on low.
- **Kitchen** Cabinets in Simply White so they float off Pearl Cove, Alabaster walls and trim, champagne bronze pulls.
- **Bedroom** Thunder walls, smoke bedding, nightstands in a warm gray brown wood, brushed nickel on the lamps.
- **Entry** A fog gray runner on Pearl Cove, Simply White on the door, a champagne bronze mirror.

WHAT TO AVOID

- Walls at the lightness of Pearl Cove: Urbane Bronze (Sherwin-Williams SW 7048, LRV 8.1) sits within a point of its LRV of 8, so wall and floor would blur into one.
- Wood that almost matches Pearl Cove: a tone like our Heritage Brown sample, 4.2 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Stark blue whites everywhere: a greige floor like Pearl Cove turns muddy beside them. Keep the whites a little warm.

THE ROOM IT SUITS

At LRV 8, Pearl Cove is dark: it is at its best in a big room with good light and warm lamps, and it shows dust, pet hair and fine scratches more than a mid tone.

At 9.06 inches a board, Pearl Cove lays about 16 boards across a 12 foot room, so the room reads open with few seams.

Pearl Cove is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Core: SPC, a rigid stone polymer core

Water: Waterproof (the maker's word)
