Plateau in a coastal room

Plateau, from the Fifth and Main Symbiotic 20 line, is a mid tone vinyl plank with a soft greige undertone (LRV 34, measured from its own picture). Here it is with Dover White walls, Greek Villa trim, and Still Water as the deep note, chosen by the numbers.

WALLS, TRIM AND CABINETS

WALLS
Dover White
Sherwin-Williams SW 6385 · LRV 82.5 · +48 from the floor
A warm white or greige in the same soft family as Plateau (hue 93° against its 96°).

OR WALLS
Simply White
Benjamin Moore OC-117 · LRV 89.5 · +55 from the floor
A warm white or greige in the same soft family as Plateau (hue 110° against its 96°).

TRIM AND CEILINGS
Greek Villa
Sherwin-Williams SW 7551 · LRV 84.2 · +50 from the floor
50 points over Plateau in LRV and warm enough (chroma 5.3) to read white, not blue, beside its greige undertone.

THE DEEP NOTE
Still Water
Sherwin-Williams SW 6223 · LRV 10.1 · -24 from the floor
Deep and quiet, 24 points darker than Plateau in LRV, a frame for a greige floor.

Lower cabinets or an island in Still Water, uppers and trim in Greek Villa. The floor at LRV 34 sits between the two (10 and 84).

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
34	65	Greige	96°

A greige: soft gray with a little warmth. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Plateau is lighter than 71 percent of the 1,202 vinyl floors we carry, measured the same way, and warmer than 33 percent of them.

WOOD, RUGS AND METALS

A step darker: a smoky gray brown wood
About 20 points darker than Plateau in L* (45 against 65), far enough to read as a choice. Like our Dark Gray stain sample.

A step lighter: black or painted pieces
Plateau is lighter than any wood stain we photographed (L* 65), so contrast comes from black, painted or upholstered pieces.

Tone on tone: charcoal
5 in chroma, half the warmth of Plateau (11), and 34 points darker in L*.

Across the wheel: storm blue
Hue 276°, straight across the color wheel from the 96° of Plateau, softened to balance it.

Grounding: graphite
A deep note at L* 35, 30 points from the 65 of Plateau, so a rug keeps its edge.

Polished nickel
A bright nickel with a touch of warmth, for the greige undertone of Plateau (chroma 10.5).

Champagne bronze
A warm metal that agrees with the greige undertone of Plateau (hue 96°).

Brushed nickel
A soft satin nickel, quieter than chrome, for the greige of Plateau.

ROOM BY ROOM

- **Living room** Dover White walls and Greek Villa trim, a charcoal rug in a flat weave on Plateau, storm blue pillows, black or painted side tables.
- **Kitchen** Greek Villa cabinets with an island in Still Water, polished nickel hardware, Plateau underfoot.
- **Bedroom** Simply White walls, charcoal linen, a storm blue throw, champagne bronze on the lamps.
- **Bath** Still Water on the vanity, Greek Villa walls, a graphite mat, brushed nickel fixtures.

WHAT TO AVOID

- Walls at the lightness of Plateau: Debonair (Sherwin-Williams SW 9139, LRV 33.9) sits within a point of its LRV of 34, so wall and floor would blur into one.
- Stark blue whites everywhere: a greige floor like Plateau turns muddy beside them. Keep the whites a little warm.

THE ROOM IT SUITS

At LRV 34, Plateau is a mid tone: it holds its color in a sunny room and hides everyday dust and pet hair better than a very dark or very light floor.

At 6 inches a board, Plateau lays about 24 boards across a 12 foot room.
