Sharpwell Oak in a modern farmhouse room

Sharpwell Oak from the COREtec Pro Plus Enhanced Planks line is a mid dark vinyl plank with a soft greige undertone (measured from its own picture: LRV 19). Here it is with Classic Gray walls, Alabaster trim, and Balboa Mist on the cabinets, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	CABINETS	WOOD
Sharpwell Oak LRV 19	**Classic Gray** Benjamin Moore OC-23 LRV 73.7	**Alabaster** Sherwin-Williams SW 7008 LRV 82.2	**Balboa Mist** Benjamin Moore OC-27 LRV 65.5	**A charcoal wood** Like our Ebony stain sample

WALLS, TRIM AND CABINETS

WALLS
Classic Gray
Benjamin Moore OC-23 · LRV 73.7 · +55 from the floor
A warm white or greige in the same soft family as Sharpwell Oak (hue 97° against its 77°).

OR WALLS
Dover White
Sherwin-Williams SW 6385 · LRV 82.5 · +64 from the floor
A warm white or greige in the same soft family as Sharpwell Oak (hue 93° against its 77°).

TRIM AND CEILINGS
Alabaster
Sherwin-Williams SW 7008 · LRV 82.2 · +63 from the floor
63 points over Sharpwell Oak in LRV and warm enough (chroma 5.3) to read white, not blue, beside its greige undertone.

CABINETS
Balboa Mist
Benjamin Moore OC-27 · LRV 65.5 · +47 from the floor
A light color with some life in it, so cabinets float off Sharpwell Oak (a 47 point step in LRV).

Cabinets in Balboa Mist or Alabaster: a dark floor needs light cabinets to float above it.

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
19	50	Greige	77°

A greige: soft gray with a little warmth. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Sharpwell Oak is lighter than 34 percent of the 1,206 vinyl floors we carry, measured the same way, and warmer than 24 percent of them.

WOOD, RUGS AND METALS

A step darker: a charcoal wood
About 21 points darker than Sharpwell Oak in L* (29 against 50), far enough to read as a choice. Like our Ebony stain sample.

A step lighter: a pale, bleached wood
About 17 points lighter than Sharpwell Oak in L* (67 against 50). Like our Natural stain sample.

Tone on tone: fog gray
4 in chroma, half the warmth of Sharpwell Oak (9), and 28 points lighter in L*.

Across the wheel: graphite
Hue 257°, straight across the color wheel from the 77° of Sharpwell Oak, softened to balance it.

Grounding: charcoal
A deep note at L* 20, 30 points from the 50 of Sharpwell Oak, so a rug keeps its edge.

Matte black
Black works with every undertone; beside Sharpwell Oak at LRV 19 it gives the room its outline.

Champagne bronze
A warm metal that agrees with the greige undertone of Sharpwell Oak (hue 77°).

Brushed nickel
A soft satin nickel, quieter than chrome, for the greige of Sharpwell Oak.

ROOM BY ROOM

- **Living room** Classic Gray walls and Alabaster trim, a fog gray rug with a charcoal edge on Sharpwell Oak, a coffee table in a charcoal wood.
- **Kitchen** Cabinets in Balboa Mist so they float off Sharpwell Oak, Alabaster walls and trim, champagne bronze pulls.
- **Dining room** A table in a charcoal wood on Sharpwell Oak, chairs in a pale, bleached wood, champagne bronze pendants.
- **Bedroom** Dover White walls, fog gray linen, a graphite quilt, brushed nickel on the lamps.

WHAT TO AVOID

- Walls at the lightness of Sharpwell Oak: Gauntlet Gray (Sherwin-Williams SW 7019, LRV 17.4) sits within a point of its LRV of 19, so wall and floor would blur into one.
- Wood that almost matches Sharpwell Oak: a tone like our Warm Gray sample, 4.5 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Stark blue whites everywhere: a greige floor like Sharpwell Oak turns muddy beside them. Keep the whites a little warm.

THE ROOM IT SUITS

At LRV 19, Sharpwell Oak is mid dark: it is at its best in a big room with good light and warm lamps, and it shows dust, pet hair and fine scratches more than a mid tone.

At 7 inches a board, Sharpwell Oak lays about 21 boards across a 12 foot room, so the room reads open with few seams.

Sharpwell Oak is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 20 mil

Core: SPC, a rigid stone polymer core

Finish: UV Acrylic
