Smokey Oak in a Japandi room

Smokey Oak from the Legacy Flooring Collection Toucan 9 in line is a mid tone vinyl plank with a soft greige undertone (measured from its own picture: LRV 26). It's shown with Crushed Ice walls, Greek Villa trim and Lafayette Green as the deep note, chosen by the numbers.

WALLS, TRIM AND CABINETS

WALLS
Crushed Ice
Sherwin-Williams SW 7647 · LRV 65.5 · +40 from the floor
A warm white or greige in the same soft family as Smokey Oak (hue 93° against its 76°).

OR WALLS
Edgecomb Gray
Benjamin Moore HC-173 · LRV 63.1 · +37 from the floor
A warm white or greige in the same soft family as Smokey Oak (hue 94° against its 76°).

TRIM AND CEILINGS
Greek Villa
Sherwin-Williams SW 7551 · LRV 84.2 · +58 from the floor
58 points over Smokey Oak in LRV and warm enough (chroma 5.3) to read white, not blue, beside its greige undertone.

THE DEEP NOTE
Lafayette Green
Benjamin Moore HC-135 · LRV 10.5 · -15 from the floor
Deep and quiet, 15 points darker than Smokey Oak in LRV, a frame for a greige floor.

Lower cabinets or an island in Lafayette Green, uppers and trim in Greek Villa. The floor at LRV 26 sits between the two (11 and 84).

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
26	58	Greige	76°

A greige: soft gray with a little warmth. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Smokey Oak is lighter than 50 percent of the 1,202 vinyl floors we carry, measured the same way, and warmer than 34 percent of them.

WOOD, RUGS AND METALS

A step darker: a mid brown wood
About 19 points darker than Smokey Oak in L* (38 against 58), far enough to read as a choice. Like our Chestnut stain sample.

A step lighter: a pale, bleached wood
About 14 points lighter than Smokey Oak in L* (72 against 58). Like our Country White stain sample.

Tone on tone: fog gray
5 in chroma, half the warmth of Smokey Oak (11), and 28 points lighter in L*.

Across the wheel: graphite
Hue 256°, straight across the color wheel from the 76° of Smokey Oak, softened to balance it.

Grounding: charcoal
A deep note at L* 28, 30 points from the 58 of Smokey Oak, so a rug keeps its edge.

Matte black
Black works with every undertone; beside Smokey Oak at LRV 26 it gives the room its outline.

Champagne bronze
A warm metal that agrees with the greige undertone of Smokey Oak (hue 76°).

Brushed nickel
A soft satin nickel, quieter than chrome, for the greige of Smokey Oak.

ROOM BY ROOM

- **Living room** Crushed Ice walls and Greek Villa trim, a low table in a pale, bleached wood on Smokey Oak, a fog gray rug, one graphite cushion.
- **Kitchen** Greek Villa cabinets, Lafayette Green on the island or one wall, matte black pulls, Smokey Oak underfoot.
- **Bedroom** Edgecomb Gray walls, a low bed in a mid brown wood, fog gray linen, champagne bronze in small doses.
- **Entry** A bench in a pale, bleached wood, a charcoal mat on Smokey Oak, brushed nickel hooks.

WHAT TO AVOID

- Walls at the lightness of Smokey Oak: Evergreen Fog (Sherwin-Williams SW 9130, LRV 30.4) sits 5 points from its LRV of 26, so wall and floor would blur into one.
- Wood that almost matches Smokey Oak: a tone like our Rustic Beige sample, 6.1 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Stark blue whites everywhere: a greige floor like Smokey Oak turns muddy beside them. Keep the whites a little warm.

THE ROOM IT SUITS

At LRV 26, Smokey Oak is a mid tone: it holds its color in a sunny room and hides everyday dust and pet hair better than a very dark or very light floor.

At 9 inches a board, Smokey Oak lays about 16 boards across a 12 foot room, so the room reads open with few seams.

Smokey Oak is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 20 mil

Core: SPC, a rigid stone polymer core

Water: Waterproof (the maker's word)
