Terra in a dark and moody room

Terra from the Fifth and Main Symbiotic 20 line is a dark vinyl plank with a golden undertone (measured from its own picture: LRV 8). Here it is with Mindful Gray walls, Alabaster trim, and Upward on the cabinets, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	CABINETS	WOOD
Terra LRV 8	**Mindful Gray** Sherwin-Williams SW 7016 LRV 47.7	**Alabaster** Sherwin-Williams SW 7008 LRV 82.2	**Upward** Sherwin-Williams SW 6239 LRV 57.4	**A warm gray brown wood** Like our Warm Gray stain sample

WALLS, TRIM AND CABINETS

WALLS
Mindful Gray
Sherwin-Williams SW 7016 · LRV 47.7 · +40 from the floor
A soft neutral with a touch of warmth (hue 90°), so Terra stays golden without turning yellow.

OR WALLS
Thunder
Benjamin Moore AF-685 · LRV 47.6 · +40 from the floor
A soft neutral with a touch of warmth (hue 92°), so Terra stays golden without turning yellow.

TRIM AND CEILINGS
Alabaster
Sherwin-Williams SW 7008 · LRV 82.2 · +75 from the floor
75 points over Terra in LRV and warm enough (chroma 5.3) to read white, not blue, beside its golden undertone.

CABINETS
Upward
Sherwin-Williams SW 6239 · LRV 57.4 · +50 from the floor
A light color with some life in it, so cabinets float off Terra (a 50 point step in LRV).

Cabinets in Upward or Alabaster: a dark floor needs light cabinets to float above it.

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
8	33	Golden	70°

A golden undertone, warm without leaning red. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Terra is lighter than 5 percent of the 1,204 vinyl floors we carry, measured the same way, and warmer than 59 percent of them.

WOOD, RUGS AND METALS

A step lighter: a warm gray brown wood
About 15 points lighter than Terra in L* (48 against 33). Like our Warm Gray stain sample.

Tone on tone: mushroom
7 in chroma, half the warmth of Terra (16), and 28 points lighter in L*.

Across the wheel: slate blue
Hue 250°, straight across the color wheel from the 70° of Terra, softened to balance it.

Grounding: dove gray
A light note at L* 78, 45 points from the 33 of Terra, so a rug keeps its edge.

Aged brass
A warm metal that agrees with the golden undertone of Terra (hue 70°).

Unlacquered brass
Left unsealed, it darkens with handling to a softer warm tone beside Mindful Gray walls.

Matte black
Black works with every undertone; beside Terra at LRV 8 it gives the room its outline.

ROOM BY ROOM

- **Living room** Mindful Gray walls and Alabaster trim over Terra, velvet in mushroom with a slate blue pillow, aged brass lamps on low.
- **Kitchen** Cabinets in Upward so they float off Terra, Alabaster walls and trim, unlacquered brass pulls.
- **Bedroom** Thunder walls, mushroom bedding, nightstands in a warm gray brown wood, matte black on the lamps.
- **Entry** A dove gray runner on Terra, Upward on the door, an unlacquered brass mirror.

WHAT TO AVOID

- Walls at the lightness of Terra: Urbane Bronze (Sherwin-Williams SW 7048, LRV 8.1) sits within a point of its LRV of 8, so wall and floor would blur into one.
- Wood that almost matches Terra: a tone like our Jacobean sample, 3.7 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Walls that lean yellow: yellow on yellow flattens the golden undertone of Terra (hue 70°).

THE ROOM IT SUITS

At LRV 8, Terra is dark: it is at its best in a big room with good light and warm lamps, and it shows dust, pet hair and fine scratches more than a mid tone.

At 6 inches a board, Terra lays about 24 boards across a 12 foot room.

Living spaces and bedrooms; ask us about wet rooms.

Wear layer: 20 mil

Finish: ExoGuard+®
