Truffle Brown Oak in a warm modern room

Truffle Brown Oak from the COREtec Retro Revival line is a mid tone vinyl plank with a golden undertone (measured from its own picture: LRV 23). Here it is with Gray Owl walls, Alabaster trim, and Naval as the deep note, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	DEEP NOTE	WOOD
Truffle Brown Oak LRV 23	**Gray Owl** Benjamin Moore OC-52 LRV 64.5	**Alabaster** Sherwin-Williams SW 7008 LRV 82.2	**Naval** Sherwin-Williams SW 6244 LRV 4.5	**A charcoal wood** Like our Heritage Brown stain sample

WALLS, TRIM AND CABINETS

WALLS
Gray Owl
Benjamin Moore OC-52 · LRV 64.5 · +41 from the floor
A soft neutral with a touch of warmth (hue 115°), so Truffle Brown Oak stays golden without turning yellow.

OR WALLS
Dover White
Sherwin-Williams SW 6385 · LRV 82.5 · +59 from the floor
A soft neutral with a touch of warmth (hue 93°), so Truffle Brown Oak stays golden without turning yellow.

TRIM AND CEILINGS
Alabaster
Sherwin-Williams SW 7008 · LRV 82.2 · +59 from the floor
59 points over Truffle Brown Oak in LRV and warm enough (chroma 5.3) to read white, not blue, beside its golden undertone.

THE DEEP NOTE
Naval
Sherwin-Williams SW 6244 · LRV 4.5 · -19 from the floor
Deep and cool, about 168° around the color wheel from Truffle Brown Oak and 19 points darker in LRV, so each makes the other look richer.

Lower cabinets or an island in Naval, uppers and trim in Alabaster. The floor at LRV 23 sits between the two (5 and 82).

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
23	55	Golden	71°

A golden undertone, warm without leaning red. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Truffle Brown Oak is lighter than 44 percent of the 1,206 vinyl floors we carry, measured the same way, and warmer than 92 percent of them.

WOOD, RUGS AND METALS

A step darker: a charcoal wood
About 21 points darker than Truffle Brown Oak in L* (35 against 55), far enough to read as a choice. Like our Heritage Brown stain sample.

A step lighter: a pale, bleached wood
About 16 points lighter than Truffle Brown Oak in L* (72 against 55). Like our Country White stain sample.

Tone on tone: oatmeal
11 in chroma, half the warmth of Truffle Brown Oak (25), and 28 points lighter in L*.

Across the wheel: graphite
Hue 251°, straight across the color wheel from the 71° of Truffle Brown Oak, softened to balance it.

Grounding: chocolate
A deep note at L* 25, 30 points from the 55 of Truffle Brown Oak, so a rug keeps its edge.

Aged brass
A warm metal that agrees with the golden undertone of Truffle Brown Oak (hue 71°).

Unlacquered brass
Left unsealed, it darkens with handling to a softer warm tone beside Gray Owl walls.

Matte black
Black works with every undertone; beside Truffle Brown Oak at LRV 23 it gives the room its outline.

ROOM BY ROOM

- **Living room** Gray Owl walls and Alabaster trim around Truffle Brown Oak, an oatmeal rug with a chocolate border, a coffee table in a charcoal wood, aged brass lamps.
- **Kitchen** Naval on the island or the lower cabinets, Alabaster uppers, unlacquered brass pulls, Truffle Brown Oak underfoot.
- **Bedroom** Dover White walls, bedding in oatmeal with one graphite pillow, nightstands in a pale, bleached wood.
- **Entry** A chocolate runner on Truffle Brown Oak, Naval on the front door, a matte black mirror.

WHAT TO AVOID

- Walls at the lightness of Truffle Brown Oak: Retreat (Sherwin-Williams SW 6207, LRV 20.9) sits 2 points from its LRV of 23, so wall and floor would blur into one.
- Wood that almost matches Truffle Brown Oak: a tone like our Weathered Oak sample, 2.5 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Walls that lean yellow: yellow on yellow flattens the golden undertone of Truffle Brown Oak (hue 71°).

THE ROOM IT SUITS

At LRV 23, Truffle Brown Oak is a mid tone: it holds its color in a sunny room and hides everyday dust and pet hair better than a very dark or very light floor.

At 9 inches a board, Truffle Brown Oak lays about 16 boards across a 12 foot room, so the room reads open with few seams.

Truffle Brown Oak is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 22 mil

Core: WPC, a wood plastic composite core

Finish: UV Acrylic
