Turquoise in a dark and moody room

Turquoise, from the Fifth and Main Color Range 20 line, is a dark vinyl plank with a golden undertone (measured from its own picture: LRV 8). Here it is with Thunder walls, Swiss Coffee trim, and Alabaster on the cabinets, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	CABINETS	WOOD
Turquoise LRV 8	**Thunder** Benjamin Moore AF-685 LRV 47.6	**Swiss Coffee** Benjamin Moore OC-45 LRV 81.9	**Alabaster** Sherwin-Williams SW 7008 LRV 82.2	**A warm gray brown wood** Like our Warm Gray stain sample

WALLS, TRIM AND CABINETS

WALLS
Thunder
Benjamin Moore AF-685 · LRV 47.6 · +40 from the floor
A soft neutral with a touch of warmth (hue 92°), so Turquoise stays golden without turning yellow.

OR WALLS
Repose Gray
Sherwin-Williams SW 7015 · LRV 58.2 · +51 from the floor
A soft neutral with a touch of warmth (hue 97°), so Turquoise stays golden without turning yellow.

TRIM AND CEILINGS
Swiss Coffee
Benjamin Moore OC-45 · LRV 81.9 · +74 from the floor
74 points over Turquoise in LRV and warm enough (chroma 5.7) to read white, not blue, beside its golden undertone.

CABINETS
Alabaster
Sherwin-Williams SW 7008 · LRV 82.2 · +75 from the floor
A light color with some life in it, so cabinets float off Turquoise (a 75 point step in LRV).

Cabinets in Alabaster or Swiss Coffee: a dark floor needs light cabinets to float above it.

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
8	33	Golden	214°

A golden undertone, warm without leaning red. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Turquoise is lighter than 6 percent of the 1,206 vinyl floors we carry, measured the same way, and warmer than 63 percent of them.

WOOD, RUGS AND METALS

A step lighter: a warm gray brown wood
About 15 points lighter than Turquoise in L* (48 against 33). Like our Warm Gray stain sample.

Tone on tone: eucalyptus
7 in chroma, half the warmth of Turquoise (16), and 28 points lighter in L*.

Across the wheel: mushroom
Hue 34°, straight across the color wheel from the 214° of Turquoise, softened to balance it.

Grounding: mist blue
A light note at L* 78, 45 points from the 33 of Turquoise, so a rug keeps its edge.

Aged brass
A warm metal that agrees with the golden undertone of Turquoise (hue 214°).

Unlacquered brass
Left unsealed, it darkens with handling to a softer warm tone beside Thunder walls.

Matte black
Black works with every undertone; beside Turquoise at LRV 8 it gives the room its outline.

ROOM BY ROOM

- **Living room** Thunder walls and Swiss Coffee trim over Turquoise, velvet in eucalyptus with a mushroom pillow, aged brass lamps on low.
- **Kitchen** Cabinets in Alabaster so they float off Turquoise, Swiss Coffee walls and trim, unlacquered brass pulls.
- **Bedroom** Repose Gray walls, eucalyptus bedding, nightstands in a warm gray brown wood, matte black on the lamps.
- **Entry** A mist blue runner on Turquoise, Alabaster on the door, an unlacquered brass mirror.

WHAT TO AVOID

- Walls at the lightness of Turquoise: Urbane Bronze (Sherwin-Williams SW 7048, LRV 8.1) sits within a point of its LRV of 8, so wall and floor would blur into one.
- Walls that lean yellow: yellow on yellow flattens the golden undertone of Turquoise (hue 214°).

THE ROOM IT SUITS

At LRV 8, Turquoise is dark: it is at its best in a big room with good light and warm lamps, and it shows dust, pet hair and fine scratches more than a mid tone.

At 6 inches a board, Turquoise lays about 24 boards across a 12 foot room.

Living spaces and bedrooms; ask us about wet rooms.

Wear layer: 20 mil

Finish: ExoGuard+®
