Tyro Walnut in a dark and moody room

Tyro Walnut, from the COREtec CT HD 7x60 INTG line, is a dark vinyl plank with an amber undertone (measured from its own picture: LRV 7). Here it is with Revere Pewter walls, Alabaster trim, and Upward on the cabinets, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	CABINETS	WOOD
Tyro Walnut LRV 7	**Revere Pewter** Benjamin Moore HC-172 LRV 55.1	**Alabaster** Sherwin-Williams SW 7008 LRV 82.2	**Upward** Sherwin-Williams SW 6239 LRV 57.4	**A warm gray brown wood** Like our Warm Gray stain sample

WALLS, TRIM AND CABINETS

WALLS
Revere Pewter
Benjamin Moore HC-172 · LRV 55.1 · +48 from the floor
Its undertone leans green (hue 95°), which quiets the orange in Tyro Walnut (hue 63°) instead of echoing it.

OR WALLS
Repose Gray
Sherwin-Williams SW 7015 · LRV 58.2 · +52 from the floor
Its undertone leans green (hue 97°), which quiets the orange in Tyro Walnut (hue 63°) instead of echoing it.

TRIM AND CEILINGS
Alabaster
Sherwin-Williams SW 7008 · LRV 82.2 · +76 from the floor
76 points over Tyro Walnut in LRV and warm enough (chroma 5.3) to read white, not blue, beside its amber undertone.

CABINETS
Upward
Sherwin-Williams SW 6239 · LRV 57.4 · +51 from the floor
A light color with some life in it, so cabinets float off Tyro Walnut (a 51 point step in LRV).

Cabinets in Upward or Alabaster: a dark floor needs light cabinets to float above it.

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
7	31	Amber	63°

An amber undertone, warm and a little orange. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Tyro Walnut is lighter than 4 percent of the 1,206 vinyl floors we carry, measured the same way, and warmer than 53 percent of them.

WOOD, RUGS AND METALS

A step lighter: a warm gray brown wood
About 17 points lighter than Tyro Walnut in L* (48 against 31). Like our Warm Gray stain sample.

Tone on tone: mushroom
7 in chroma, half the warmth of Tyro Walnut (14), and 28 points lighter in L*.

Across the wheel: slate blue
Hue 243°, straight across the color wheel from the 63° of Tyro Walnut, softened to balance it.

Grounding: dove gray
A light note at L* 76, 45 points from the 31 of Tyro Walnut, so a rug keeps its edge.

Aged brass
A warm metal that agrees with the amber undertone of Tyro Walnut (hue 63°).

Unlacquered brass
Left unsealed, it darkens with handling to a softer warm tone beside Revere Pewter walls.

Matte black
Black works with every undertone; beside Tyro Walnut at LRV 7 it gives the room its outline.

ROOM BY ROOM

- **Living room** Revere Pewter walls and Alabaster trim over Tyro Walnut, velvet in mushroom with a slate blue pillow, aged brass lamps on low.
- **Kitchen** Cabinets in Upward so they float off Tyro Walnut, Alabaster walls and trim, unlacquered brass pulls.
- **Bedroom** Repose Gray walls, mushroom bedding, nightstands in a warm gray brown wood, matte black on the lamps.
- **Entry** A dove gray runner on Tyro Walnut, Upward on the door, an unlacquered brass mirror.

WHAT TO AVOID

- Walls at the lightness of Tyro Walnut: Black Fox (Sherwin-Williams SW 7020, LRV 6.7) sits within a point of its LRV of 7, so wall and floor would blur into one.
- Wood that almost matches Tyro Walnut: a tone like our Jacobean sample, 3.0 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Pink or peach beige walls: they pull more orange out of the amber undertone of Tyro Walnut (hue 63°).

THE ROOM IT SUITS

At LRV 7, Tyro Walnut is dark: it is at its best in a big room with good light and warm lamps, and it shows dust, pet hair and fine scratches more than a mid tone.

At 7 inches a board, Tyro Walnut lays about 21 boards across a 12 foot room, so the room reads open with few seams.

Tyro Walnut is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 20 mil

Core: WPC, a wood plastic composite core

Finish: UV Acrylic
