Valor Oak in a coastal room

Valor Oak, from the COREtec Originals Premium line, is a mid tone vinyl plank with a golden undertone (LRV 34, measured from its own picture). Here it is with Cloud White walls, Swiss Coffee trim, and Newburg Green as the deep note, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	DEEP NOTE	WOOD
Valor Oak LRV 34	**Cloud White** Benjamin Moore OC-130 LRV 85.1	**Swiss Coffee** Benjamin Moore OC-45 LRV 81.9	**Newburg Green** Benjamin Moore HC-158 LRV 10.6	**A smoky gray brown wood** Like our Dark Gray stain sample

WALLS, TRIM AND CABINETS

WALLS
Cloud White
Benjamin Moore OC-130 · LRV 85.1 · +51 from the floor
A soft neutral with a touch of warmth (hue 106°), so Valor Oak stays golden without turning yellow.

OR WALLS
Dover White
Sherwin-Williams SW 6385 · LRV 82.5 · +48 from the floor
A soft neutral with a touch of warmth (hue 93°), so Valor Oak stays golden without turning yellow.

TRIM AND CEILINGS
Swiss Coffee
Benjamin Moore OC-45 · LRV 81.9 · +48 from the floor
48 points over Valor Oak in LRV and warm enough (chroma 5.7) to read white, not blue, beside its golden undertone.

THE DEEP NOTE
Newburg Green
Benjamin Moore HC-158 · LRV 10.6 · -24 from the floor
Deep and cool, about 158° around the color wheel from Valor Oak and 24 points darker in LRV, so each makes the other look richer.

Lower cabinets or an island in Newburg Green, uppers and trim in Swiss Coffee. The floor at LRV 34 sits between the two (11 and 82).

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
34	65	Golden	76°

A golden undertone, warm without leaning red. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Valor Oak is lighter than 72 percent of the 1,202 vinyl floors we carry, measured the same way, and warmer than 52 percent of them.

WOOD, RUGS AND METALS

A step darker: a smoky gray brown wood
About 20 points darker than Valor Oak in L* (45 against 65), far enough to read as a choice. Like our Dark Gray stain sample.

A step lighter: black or painted pieces
Valor Oak is lighter than any wood stain we photographed (L* 65), so contrast comes from black, painted or upholstered pieces.

Tone on tone: walnut brown
6 in chroma, half the warmth of Valor Oak (14), and 34 points darker in L*.

Across the wheel: storm blue
Hue 256°, straight across the color wheel from the 76° of Valor Oak, softened to balance it.

Grounding: graphite
A deep note at L* 35, 30 points from the 65 of Valor Oak, so a rug keeps its edge.

Polished nickel
A bright nickel with a touch of warmth, for the golden undertone of Valor Oak (chroma 14.2).

Aged brass
A warm metal that agrees with the golden undertone of Valor Oak (hue 76°).

Unlacquered brass
Left unsealed, it darkens with handling to a softer warm tone beside Cloud White walls.

ROOM BY ROOM

- **Living room** Cloud White walls and Swiss Coffee trim, a walnut brown rug in a flat weave on Valor Oak, storm blue pillows, black or painted side tables.
- **Kitchen** Swiss Coffee cabinets with an island in Newburg Green, polished nickel hardware, Valor Oak underfoot.
- **Bedroom** Dover White walls, walnut brown linen, a storm blue throw, aged brass on the lamps.
- **Bath** Newburg Green on the vanity, Swiss Coffee walls, a graphite mat, unlacquered brass fixtures.

WHAT TO AVOID

- Walls at the lightness of Valor Oak: Debonair (Sherwin-Williams SW 9139, LRV 33.9) sits within a point of its LRV of 34, so wall and floor would blur into one.
- Wood that almost matches Valor Oak: a tone like our Country White sample, 5.6 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Walls that lean yellow: yellow on yellow flattens the golden undertone of Valor Oak (hue 76°).

THE ROOM IT SUITS

At LRV 34, Valor Oak is a mid tone: it holds its color in a sunny room and hides everyday dust and pet hair better than a very dark or very light floor.

At 7 inches a board, Valor Oak lays about 21 boards across a 12 foot room, so the room reads open with few seams.

Valor Oak is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 30 mil

Core: WPC, a wood plastic composite core

Finish: UV Acrylic
