Warwick Maple in a modern farmhouse room

Warwick Maple from the COREtec Pro Premium line is a mid dark vinyl plank with a golden undertone (LRV 16, measured from its own picture). Here it is with Cloud White walls, Greek Villa trim, and Upward on the cabinets, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	CABINETS	WOOD
Warwick Maple LRV 16	**Cloud White** Benjamin Moore OC-130 LRV 85.1	**Greek Villa** Sherwin-Williams SW 7551 LRV 84.2	**Upward** Sherwin-Williams SW 6239 LRV 57.4	**A charcoal wood** Like our Ebony stain sample

WALLS, TRIM AND CABINETS

WALLS
Cloud White
Benjamin Moore OC-130 · LRV 85.1 · +69 from the floor
A soft neutral with a touch of warmth (hue 106°), so Warwick Maple stays golden without turning yellow.

OR WALLS
Dover White
Sherwin-Williams SW 6385 · LRV 82.5 · +66 from the floor
A soft neutral with a touch of warmth (hue 93°), so Warwick Maple stays golden without turning yellow.

TRIM AND CEILINGS
Greek Villa
Sherwin-Williams SW 7551 · LRV 84.2 · +68 from the floor
68 points over Warwick Maple in LRV and warm enough (chroma 5.3) to read white, not blue, beside its golden undertone.

CABINETS
Upward
Sherwin-Williams SW 6239 · LRV 57.4 · +41 from the floor
A light color with some life in it, so cabinets float off Warwick Maple (a 41 point step in LRV).

Cabinets in Upward or Greek Villa: a dark floor needs light cabinets to float above it.

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
16	47	Golden	68°

A golden undertone, warm without leaning red. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Warwick Maple is lighter than 28 percent of the 1,206 vinyl floors we carry, measured the same way, and warmer than 62 percent of them.

WOOD, RUGS AND METALS

A step darker: a charcoal wood
About 18 points darker than Warwick Maple in L* (29 against 47), far enough to read as a choice. Like our Ebony stain sample.

A step lighter: a light natural wood
About 14 points lighter than Warwick Maple in L* (61 against 47). Like our Silvered Gray stain sample.

Tone on tone: dove gray
7 in chroma, half the warmth of Warwick Maple (16), and 28 points lighter in L*.

Across the wheel: mist blue
Hue 248°, straight across the color wheel from the 68° of Warwick Maple, softened to balance it.

Grounding: espresso
A deep note at L* 20, 27 points from the 47 of Warwick Maple, so a rug keeps its edge.

Matte black
Black works with every undertone; beside Warwick Maple at LRV 16 it gives the room its outline.

Aged brass
A warm metal that agrees with the golden undertone of Warwick Maple (hue 68°).

Unlacquered brass
Left unsealed, it darkens with handling to a softer warm tone beside Cloud White walls.

ROOM BY ROOM

- **Living room** Cloud White walls and Greek Villa trim, a dove gray rug with an espresso edge on Warwick Maple, a coffee table in a charcoal wood.
- **Kitchen** Cabinets in Upward so they float off Warwick Maple, Greek Villa walls and trim, aged brass pulls.
- **Dining room** A table in a charcoal wood on Warwick Maple, chairs in a light natural wood, aged brass pendants.
- **Bedroom** Dover White walls, dove gray linen, a mist blue quilt, unlacquered brass on the lamps.

WHAT TO AVOID

- Walls at the lightness of Warwick Maple: Sage Green Light (Sherwin-Williams SW 2851, LRV 16.1) sits within a point of its LRV of 16, so wall and floor would blur into one.
- Wood that almost matches Warwick Maple: a tone like our Warm Gray sample, 2.6 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Walls that lean yellow: yellow on yellow flattens the golden undertone of Warwick Maple (hue 68°).

THE ROOM IT SUITS

At LRV 16, Warwick Maple is mid dark: it is at its best in a big room with good light and warm lamps, and it shows dust, pet hair and fine scratches more than a mid tone.

At 7 inches a board, Warwick Maple lays about 21 boards across a 12 foot room, so the room reads open with few seams.

Warwick Maple is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 20 mil

Core: SPC, a rigid stone polymer core

Finish: UV Acrylic
