

Whitefill Oak in a dark and moody room

Whitefill Oak from the Shaw Floors Paragon 7 USA line is a dark vinyl plank with almost no undertone (measured from its own picture: LRV 8). It's shown with Clary Sage walls, Extra White trim, and Classic Gray on the cabinets, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	CABINETS	WOOD
Whitefill Oak LRV 8	Clary Sage Sherwin-Williams SW 6178 LRV 41	Extra White Sherwin-Williams SW 7006 LRV 85.9	Classic Gray Benjamin Moore OC-23 LRV 73.7	A honey tone Like our Golden Oak stain sample

WALLS, TRIM AND CABINETS

WALLS

Clary Sage

Sherwin-Williams SW 6178 • LRV 41 • +33 from the floor
A soft, cool leaning color (hue 111°) that keeps Whitefill Oak crisp and gray.

OR WALLS

Coventry Gray

Benjamin Moore HC-169 • LRV 48.2 • +40 from the floor
A clean neutral (chroma 2.3) that keeps Whitefill Oak crisp and gray.

TRIM AND CEILINGS

Extra White

Sherwin-Williams SW 7006 • LRV 85.9 • +78 from the floor
78 points over Whitefill Oak in LRV, a clean white (chroma 2.6) that keeps Whitefill Oak crisp.

CABINETS

Classic Gray

Benjamin Moore OC-23 • LRV 73.7 • +66 from the floor
A light color with some life in it, so cabinets float off Whitefill Oak (a 66 point step in LRV).

Cabinets in Classic Gray or Extra White: a dark floor needs light cabinets to float above it.

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
8	34	Gray	85°

A near gray, with almost no warmth. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Whitefill Oak is lighter than 7 percent of the 1,204 vinyl floors we carry, measured the same way, and warmer than 1 percent of them.

WOOD, RUGS AND METALS

**A step lighter: a honey tone**

About 17 points lighter than Whitefill Oak in L* (51 against 34). Like our Golden Oak stain sample.

**Tone on tone: smoke**

1 in chroma, half the warmth of Whitefill Oak (2), and 28 points lighter in L*.

**Across the wheel: slate blue**

Hue 265°, straight across the color wheel from the 85° of Whitefill Oak, softened to balance it.

**Grounding: fog gray**

A light note at L* 79, 45 points from the 34 of Whitefill Oak, so a rug keeps its edge.

**Aged brass**

A warm metal that agrees with the warm pieces in the room.

**Polished nickel**

A bright nickel with a touch of warmth, for the gray undertone of Whitefill Oak (chroma 1.6).

**Chrome**

The brightest and coolest finish, crisp against Whitefill Oak at chroma 1.6.

ROOM BY ROOM

- **Living room** Clary Sage walls and Extra White trim over Whitefill Oak, velvet in smoke with a slate blue pillow, aged brass lamps on low.
- **Kitchen** Cabinets in Classic Gray so they float off Whitefill Oak, Extra White walls and trim, polished nickel pulls.
- **Bedroom** Coventry Gray walls, smoke bedding, nightstands in a honey tone, chrome on the lamps.
- **Entry** A fog gray runner on Whitefill Oak, Classic Gray on the door, a polished nickel mirror.

WHAT TO AVOID

- Walls at the lightness of Whitefill Oak: Urbane Bronze (Sherwin-Williams SW 7048, LRV 8.1) sits within a point of its LRV of 8, so wall and floor would blur into one.
- Wood that almost matches Whitefill Oak: a tone like our Heritage Brown sample, 6.1 apart (CIEDE2000), reads as a near miss. Go clearly darker or lighter.
- Whites that lean yellow: beside Whitefill Oak, a near gray, they look dingy.

THE ROOM IT SUITS

At LRV 8, Whitefill Oak is dark: it is at its best in a big room with good light and warm lamps, and it shows dust, pet hair and fine scratches more than a mid tone.

At 7 inches a board, Whitefill Oak lays about 21 boards across a 12 foot room, so the room reads open with few seams.

Whitefill Oak is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 20 mil

Core: SPC, a rigid stone polymer core

Finish: ScufResist®
