

Winter Grey in a Japandi room

Winter Grey from the Legacy Flooring Collection Toucan 7 in line is a light vinyl plank with a soft greige undertone (measured from its own picture: LRV 46). Here it is with Swiss Coffee walls, Greek Villa trim, and Retreat as the deep note, chosen by the numbers.

THE PALETTE

THE FLOOR	WALLS	TRIM	DEEP NOTE	WOOD

WALLS, TRIM AND CABINETS

- WALLS**
Swiss Coffee
 Benjamin Moore OC-45 • LRV 81.9 • +36 from the floor
 A warm white or greige in the same soft family as Winter Grey (hue 103° against its 89°).
- OR WALLS**
Creamy
 Sherwin-Williams SW 7012 • LRV 81.2 • +35 from the floor
 A warm white or greige in the same soft family as Winter Grey (hue 89° against its 89°).
- TRIM AND CEILINGS**
Greek Villa
 Sherwin-Williams SW 7551 • LRV 84.2 • +38 from the floor
 38 points over Winter Grey in LRV and warm enough (chroma 5.3) to read white, not blue, beside its greige undertone.
- THE DEEP NOTE**
Retreat
 Sherwin-Williams SW 6207 • LRV 20.9 • -25 from the floor
 Deep and quiet, 25 points darker than Winter Grey in LRV, a frame for a greige floor.
- **Matte black**
 Black works with every undertone; beside Winter Grey at LRV 46 it gives the room its outline.
- **Champagne bronze**
 A warm metal that agrees with the greige undertone of Winter Grey (hue 89°).
- **Brushed nickel**
 A soft satin nickel, quieter than chrome, for the greige of Winter Grey.

ROOM BY ROOM

- **Living room** Swiss Coffee walls and Greek Villa trim, black or painted a low table on Winter Grey, a graphite rug, one slate blue cushion.
- **Kitchen** Greek Villa cabinets, Retreat on the island or one wall, matte black pulls, Winter Grey underfoot.
- **Bedroom** Creamy walls, a low bed in a honey tone, graphite linen, champagne bronze in small doses.
- **Entry** Black or painted a bench, a pewter mat on Winter Grey, brushed nickel hooks.

WHAT TO AVOID

- Walls at the lightness of Winter Grey: Balanced Beige (Sherwin-Williams SW 7037, LRV 45.6) sits within a point of its LRV of 46, so wall and floor would blur into one.
- Stark blue whites everywhere: a greige floor like Winter Grey turns muddy beside them. Keep the whites a little warm.

THE ROOM IT SUITS

At LRV 46, Winter Grey is light: it bounces light back into the room, suits north facing rooms, basements and small rooms, and shows dark grit more than lint.

At 7.2 inches a board, Winter Grey lays about 20 boards across a 12 foot room, so the room reads open with few seams.

Winter Grey is waterproof, so it belongs in kitchens, baths, mudrooms and basements as well as living spaces.

Wear layer: 20 mil

Core: SPC, a rigid stone polymer core

Water: Waterproof (the maker's word)

THE FLOOR, MEASURED

LRV	LIGHTNESS L*	UNDERTONE	HUE
46	73	Greige	89°

A greige: soft gray with a little warmth. LRV is light reflectance value: 0 is black, 100 is white. A wall within 30 points of the floor blurs into it (BS 8300).

Winter Grey is lighter than 88 percent of the 1,198 vinyl floors we carry, measured the same way, and warmer than 29 percent of them.

WOOD, RUGS AND METALS

- **A step darker: a honey tone**
 About 20 points darker than Winter Grey in L* (53 against 73), far enough to read as a choice. Like our Golden Pecan stain sample.
- **A step lighter: black or painted pieces**
 Winter Grey is lighter than any wood stain we photographed (L* 73), so contrast comes from black, painted or upholstered pieces.
- **Tone on tone: graphite**
 4 in chroma, half the warmth of Winter Grey (10), and 34 points darker in L*.
- **Across the wheel: slate blue**
 Hue 269°, straight across the color wheel from the 89° of Winter Grey, softened to balance it.
- **Grounding: pewter**
 A deep note at L* 43, 30 points from the 73 of Winter Grey, so a rug keeps its edge.
